Dan.com CashParking Transition

Effective 25 August, 2022, Dan.com will transition to GoDaddy for domain CashParking services. To limit potential service disruptions, please complete the following steps prior to that date. Rest assured, if this is not done, your pages will revert back to the standard Dan for sale pages.

Getting Started

In order to start, you will need both a Dan and GoDaddy.com account. If you do not already have a GoDaddy account, you can create one [here](#).

When you have both accounts, you will need to submit your GoDaddy Shopper ID in your Dan [settings](#). You can find your GoDaddy Shopper ID by logging into your account at GoDaddy.com, and navigating to your account profile settings in the top right corner.

The screenshot shows the GoDaddy homepage. At the top, there's a navigation bar with the GoDaddy logo, a menu icon, and links for 'Hire an Expert', 'Help Center', a notification bell, the user name 'John', and a shopping cart icon. Below the navigation bar is a search bar with the placeholder text 'Type the domain you want' and a 'Search Domain' button. The main content area features a 'Website Builder' section with the text 'Don't forget about your website.' and a button 'Edit My Website'. To the right of this is a preview of a website design. A user profile dropdown menu is open on the right side of the page, showing the user's name 'John Smith' (highlighted with a red box), their 'Customer #' (123456789, also highlighted with a red box), and a 'PIN: View' link. Below this, the menu lists various account management options: 'ACCOUNT', 'My Products', 'Renewals & Billing', 'Account Settings', 'Sign in to Office 365 Email', 'Sign in to GoDaddy Webmail', and 'Sign Out'. At the bottom of the page, there's a grid of service categories: Domains, SSL Security, Websites, WordPress, Email & Microsoft 365, Website Design Services, Online Store, and Web Hosting. To the right of this grid is a '.info' domain promotion banner.

Domains	SSL Security	Websites	WordPress	.info Sale! \$1.99*/1st yr. Show the world what you know.
Email & Microsoft 365	Website Design Services	Online Store	Web Hosting	

Once you have your GoDaddy Shopper ID, go to the settings at Dan, and fill it in at the bottom of the page.

By filling in your GoDaddy Shopper ID and pressing the save button at the bottom of the page, your GoDaddy account will be linked to your Dan domains, enabling the PPC pages.

Note: We highly advise you to use this service while using our own nameservers (ns1.dan.com & ns2.dan.com). After connecting your GoDaddy account, you are now able to turn on the PPC feature for your domains.

You have three options:

- 1: Enable PPC parking pages for all your domains at once
- 2: Enable PPC parking pages only for domains that have a minimum amount of monthly traffic
- 3: Enable or disable the PPC for sale pages per domain

You can also enable or disable PPC parking pages per domain in your portfolio.

Clicking the pointer icon in the domain row will activate or deactivate the PPC for sale feature for the domain.

Once the steps are completed, your domain page should resolve similarly to the following example.

If you need additional help transitioning, please contact us at support@dan.com, or reach us by

phone at +1 844-951-2224.

With kind regards,

The Dan.com team

ABOUT DAN.COM

Buying a domain name has been needlessly complicated. And selling domains? Not much easier.

So we started Dan! The no-nonsense domain trading platform.

We're on a mission to make domain name trading available to everyone. Easy, fast and secure. And, most importantly: transparently. Because we believe transparency is the key to a better domain world. That's why we do what we say. And we say what we do.
