

JBL Xtreme 5 and JBL Go 5 just dropped

JBL's next generation speakers pack bigger, more detailed sound into refreshed designs

Amsterdam, 30 March 2026 – Two fan favorites just got a serious upgrade. JBL Xtreme 5 and JBL Go 5 combine Legendary JBL Sound with a refreshed look and new ambient edge lighting to bring the party wherever you take them. JBL Xtreme 5 now features AI Sound Boost and Smart EQ Mode for rich, powerful sound whether you're listening to music or podcasts while the compact JBL Go 5 makes stereo pairing even easier with AirTouch. No matter the size, JBL brings next-level sound and the vibes to match.

Turn up the volume

Now with 10% deeper bass and louder sound than the previous gen, your most-loved songs hit harder than ever with JBL Xtreme 5. Its new acoustic design made up of dual tweeters, a subwoofer, and enhanced power output delivers powerful sound, while AI Sound Boost minimizes distortion at high volumes. Switching from your party playlist to a podcast? New AI-powered SmartEQ Mode optimizes sound settings for music or speech, so you'll hear the optimal version of whatever you're listening to.

Press Release

Down to the last detail, JBL Go 5 is made to be heard. Its new hollow, contour logo is designed not only to look good, but to level up sound output and performance. Same iconic identity, with upgraded sound that is 10% louder than its predecessor. Need to make the party bigger? AirTouch makes stereo pairing even more seamless. Just touch two Go 5 speakers together and they'll pair for you.

"JBL is known for its portable speakers, and we are always looking for ways to improve and evolve them," said Carsten Olesen, President of Consumer Audio at HARMAN.

"First we brought in AI Sound Boost for clearer, louder sound for less distortion in your playback, and now with the introduction of Smart EQ Mode on Xtreme 5, we continue to develop innovative ways to deliver the best possible listening experience."

More than just sound

Go 5 features ambient edge lighting and built-in visual cues, making it easier to check if your speaker's on, paired, low on battery, or in Auracast™ mode. Xtreme 5 takes it to the next level, with multiple ambient lighting color modes to choose from. Pick the mood that fits withfor the occasion, from epic parties to chilled gatherings.

Built to move with you

Rugged, water resistant (under conditions) and dustproof, Xtreme 5 and Go 5 are made to play wherever, whenever. Rubber edges on both speakers protect them from bumps and drops, while Xtreme 5's new standing feet design make it even sturdier. Whether you need something to grab and go, or massive sound on-the-move, JBL has you covered.
