

Make your voice heard.

Introducing JBL EasySing Mic Mini

JBL's new pocket-sized AI-powered mic lets you take center stage anytime, anywhere

London, 12 May 2026 – JBL announces JBL EasySing Mic Mini, a pocket-sized mic made for on-the-go singing and content creation. With vocal separation for any track and Voice Boost for smoother high notes, JBL EasySing Mic Mini packs pro-grade performance into a truly portable design. Plug the USB-C dongle into your JBL speaker*, clip the mic on or grab it by the ring handle, and set your own stage. It's that easy.

Let your voice be heard. Thanks to advanced Vocal Removal technology, EasySing Mic Mini removes lead vocals from any song, so your own voice takes the spotlight. Let the vocals guide you with 25%, use it as a backing track with 50%, or take the lead with 0% of vocals. With cleaner, clearer backing music, a song becomes an interactive singing experience.

Clear, powerful vocals – right at your fingertips. JBL EasySing enables crisp vocals while keeping the depth and punch JBL is known for. Voice Boost helps you hit those high notes, and carefully tuned EQ and preset effects add richness and flair to your performance.

Made for more than just singing. Use the JBL EasySing Mic Mini as a standalone mic, clipped onto your clothes, or attached to the ring handle so you can move freely whether you're dancing, singing, presenting or podcasting. Creating content on the move? The EasySing Mic Mini goes wherever you do. The compact charging case makes it easy to grab and go – just pop it in your pocket or bag. Plus, with up to 6 hours of playback from the mic and up to 6 hours from the dongle (on average), JBL EasySing Mic Mini will back you through any performance.

No wires, no fuss. Plug the USB-C dongle into your go-to JBL speaker* and move freely thanks to a strong 20-meter wireless connection. Want to take your performance up a notch? Open up the JBL One App to customise the EQ, and access voice presets and effects.

The JBL EasySing Mic Mini** is available from £129.99 / €149.99 from June 2026. For more information, visit [jbl.com](https://www.jbl.com).

*JBL EasySing Mic Mini is compatible with JBL Flip 7, JBL Charge 6, JBL Boombox 4, JBL Go 5, JBL Xtreme 5, JBL Grip, JBL PartyBox On-The-Go, JBL PartyBox Encore 2, JBL PartyBox Encore Essential 2, JBL PartyBox Club 120, JBL PartyBox Stage 320, and JBL PartyBox 520 and 720.

**For non-commercial use only

Key features:

- Real-time AI-powered vocal removal from any song: Remove 25%, 50%, or 100% of vocals with clean quality at the touch of a button
- JBL EasySing algorithm enhances vocals with Voice Boost for high-pitch support
- AI noise suppression minimises background noise while recording so your voice can be heard loud and clear
- USB-C dongle with AUX output and Bluetooth for seamless connection to a wide range of speakers and smartphones
- Compact carrying case small enough to fit in your pocket or bag. Comfortably hold it with the ring handle, or go handsfree with the magnetic clip
- 6 hours of mic playtime and 6 hours from the dongle (on average)
- EQ customisation via JBL One App
