# Blockdata, a CB Insights company, to accelerate Dusk Network adoption

**Market intelligence platform Blockdata, recently acquired by CB Insights, is expanding its operations in pursuit of their ultimate goal - “to reduce friction between enterprise and supplier.” This means more visibility for Dusk Network.**

Blockdata helps all manner of companies find suitable blockchain solutions by cutting through the marketing noise. By carefully vetting blockchain providers such as Dusk Network, they’re able to serve their customers with Digital Ledger Technology that fits their purpose.

Blockdata was recently acquired by CB Insights - a major technology insights platform used by international corporations such as Microsoft, Nestle, SalesForce, and others. This acquisition has enabled a major expansion in Blockdata’s operations, which is set to significantly benefit Dusk Network’s visibility among enterprises in search of blockchain solutions.

*On the topic of their 12-month goal, Jonathan Knegt, GM of Blockdata, explains: “The driving force behind what we do is our desire to accelerate blockchain adoption and understanding. You can expect a content series after our launch in April, and continued build-out of our platform to make it an even more robust place for companies to show off their developments. Simply put we are ready to connect the dots between the supply and demand sides of the global blockchain market.”*

We’re excited to be on the ground floor of their expansion.

## **Dusk Network & Blockdata**

Our profile on Blockdata will provide us with a number of advantages in the industry, such as inclusion in their optimized search engine for vendors, ecosystem insights catering to specialized markets, and more.

One of the first major steps to increase our visibility is for Dusk Network's enhanced profile to feature on the technology intelligence platform, detailing the intricacies and benefits our DLT provides corporations. Major enterprises will be able to learn about Dusk Network technology quickly through the Blockdata platform, which is backed by the extensive CB Insights network.

**Dusk Network is among the first cohort of blockchain solutions to be highlighted on their new platform. You can directly view Dusk's profile here.**

### **About BlockData**

[Blockdata](#) is a market intelligence platform for blockchain and other distributed ledger technology (DLT). The company was founded in early 2018 as a means to create a resource of information regarding blockchain projects and their technology. Blockdata set out to do due diligence and provide corporations with informed suggestions regarding DLT solutions. About CB Insights CB Insights is a business analytics platform and global database that provides market intelligence on private companies and investor activities, backed by a global network of intelligence analysts, executives and startups.

### **About Dusk Network**

[Dusk Network](#) is the privacy blockchain for financial applications. Dusk Network envisions a financial industry that embraces innovation and provides equal opportunity for any organization to secure capital, trade assets and access a full spectrum of financial services. Companies use the Dusk Network blockchain to issue tokens, trade and collaborate via smart contracts.

---

#### ABOUT DUSK NETWORK

Dusk Network is an open source blockchain for financial applications. Data protection and privacy-preservation play a major role in Dusk Network, as well as its design for regulatory compliance. The blockchain is eco-friendly, thanks to its Proof-of-Stake consensus mechanism; a novel and efficient method of reaching agreement on the current state of the global ledger. Notably, the blockchain supports privacy-friendly smart contracts. Companies use the Dusk Network to power financial applications, issue tokens, trade and collaborate on a global scale. Dusk Network is built by a team of experts from Amsterdam, the Netherlands.
