Dusk Network (DUSK) Gets Listed on Huobi

AMSTERDAM, 23 February 2023 - We're thrilled to announce that as of today you can trade \$DUSK on Huobi, beginning with DUSK/USDT.

Huobi is a global exchange operating in 170+ countries with close to 600 coins listed on their platform, and has offices globally in Hong Kong, South Korea, Japan, and more.

Dusk Network is delighted to partner with Huobi, which will enable greater accessibility of \$DUSK to the Asian market. This collaboration strengthens our ambitions for a global expansion, opening up new opportunities in key markets and paving the way for continuing our growth.

-----END OF PRESS RELEASE-----

About Huobi

Founded in 2013, [Huobi Group](#) is the world's leading blockchain company with a mission to accelerate the digital economy through breakthrough innovations in core blockchain technologies.

Huobi Group's operations across multiple sectors, including enterprise and public blockchains, digital assets trading, cryptocurrency wallets, and industry research, reaching tens of millions of users in over 170 countries and regions. As it continues to build a global ecosystem for the future digital economy, Huobi Group remains focused on growing its diverse range of regulatory-compliant services.

About Dusk Network

[Dusk Network](#) is the global financial network for institutions and individuals that combines the privacy of FinTech, the instant clearance and settlement of DLTs, and the composability of DeFi. Dusk unlocks economic opportunities for all by making institutional-level financial assets directly available to users and investors.

Dusk Network is currently in test net mode, onboarding node runners to trial and error the Dusk blockchain. The incentivized testnet is one of the most decentralized ones in the industry, with over 650 node runners participating in the first phase of the incentivized test network. Dusk Network was founded in 2018 and is headquartered in Amsterdam.

ABOUT DUSK NETWORK

[Dusk Network](#) is an open source blockchain for financial applications. Data protection and privacy-preservation play a major role in Dusk Network, as well as its design for regulatory compliance. The blockchain is eco-friendly, thanks to its instant settlement finality, and smart contract functionality, it is finally possible to service regulatory-compliant financial applications on blockchain technology.
