

# AEROBAR ZWIFT RIDE SUPERSONIC

A complete aero cockpit package designed for adjustability, comfort, and seamless Zwift control. Featuring the lightweight Supersonic Bracket, supportive Ergo+ Armrests, and ergonomic 52A Aluminum Extensions with heat-shrink wrap, this system provides a highly adjustable fit to bring your indoor training to another level.

The newly designed and integrated 50mm Zwift Tray allows for the space needed to attached the aerobars. While the Zwift Click Holder allows for seamless control from the aero position.

## Features

### Supersonic Bracket System

- ➔ Lightweight forged alloy construction
- ➔ Extensive pad and extension adjustment range
- ➔ Optimized for modern aerodynamic positions

### Ergo+ Armrests

- ➔ Expanded support surface for enhanced comfort
- ➔ Secure arm positioning during long rides
- ➔ Reduced pressure points for improved stability

### 52A Aluminum Extensions

- ➔ Ergonomic ski-bend design for natural hand positioning
- ➔ Lightweight aluminum construction
- ➔ Pre-installed heat-shrink wrap for enhanced comfort

### Zwift Integration Package

- ➔ New 50mm Zwift Tray for clean cockpit mounting
- ➔ Dedicated Zwift Click Holder
- ➔ Zwift Click controllers for in-ride shifting and navigation

## Includes

- ➔ Supersonic Bracket
- ➔ Ergo+ Armrests
- ➔ 52A Aluminum Extensions with heat-shrink grips
- ➔ 50mm Zwift Tray
- ➔ Zwift Click Holder
- ➔ Pair of Zwift Click controllers
- ➔ USB-C Covers
- ➔ Allen Keys

## Specifications

| Bracket                  |                      |
|--------------------------|----------------------|
| Material                 | Forged 6061-T6 AL    |
| Stack Height             | 42mm                 |
| Width Adjustment         | 37mm                 |
| Basebar Clamp Diameter   | 31.8mm               |
| Extension Clamp Diameter | 22.2mm               |
| Armrest                  |                      |
| Bolt Spacing             | 18.5mm               |
| Reach Increment          | 15mm                 |
| Width Increment          | 18.5mm               |
| Length                   | 124mm                |
| Stack                    | 16mm                 |
| Extension                |                      |
| Material                 | Forged 6061-T6 AL    |
| Length                   | 400mm                |
| Angle                    | 52°                  |
| Rise                     | 87mm (bottom to top) |
| Offset                   | 15mm total           |
| Outer Diameter           | 22.2mm               |
| Weight                   | 222g/pair            |
