Rebels with a cause: the double denim riders bike for a better future

As you may know by now, Swapfiets is here to stay. We care deeply about durability and luckily, we're not the only ones. Besides our love for blue, we share the same values, goals, and aspirations as the iconic jeans brand Levi's®.

Levi's® lives by the mantra: 'buy better, wear longer'. Just like us, they're always on the go and looking out for ways to improve their brand. Levi's® designs its denim using long-lasting materials and offers a repair service in their Levi's® Tailor Shops. That's right up our alley. You can't buy our bikes because we believe less owning leads to less overconsumption. So, we've teamed up with Levi's® to ride together. Two worlds collided and that's why we now proudly introduce - drumroll please -.... the Double Denim Riders.

The Double Denim Riders are the faces of this partnership. These riders are rebels with a cause, ready to take over Amsterdam and Berlin decked out fully in Levi's® denim and equipped with a Swapfiets. They're on a mission to spread the importance of durability by using bikes and gear that are here to stay.

They have more in store than cool looks alone though. Together, we form a movement. The Double Denim Riders share the philosophy of making better and smarter choices. Our riders have an insatiable eagerness to reduce overconsumption. Most of all though, they all have the desire to ride along with you - for a better future.

Are you ready to ride and are you not a Swapfiets member yet? Join our Double Denim Riders in their mission and get a limited edition upcycled-denim bike bag made by refugees at Bridge & Tunnel. It's filled with extra bike-gifts and a denim repair kit. Oh, and a discount, of course.. Simply go into a Levi's® store, spend €75 and get 1 month free on your Swapfiets membership. It's that easy!

Sign up now and get a one month free discount on the first 3 months of your Swapfiets membership. This means €42 off the Deluxe 7 and €120 off the Power 7 + no sign-on fee for either. You're welcome.

Ride together - For the future.

ABOUT SWAPFIETS

Swapfiets ist das weltweit erste 'bicycle as a service' Unternehmen. Gegründet im Jahr 2014 in den Niederlanden, entwickelte sich das Scale-up schnell zu einem der führenden Micro Mobility Anbieter Europas mit über 250.000 Mitgliedern im Sommer 2021 in den Niederlanden, Deutschland, Belgien, Dänemark, Frankreich, Italien, Spanien, Österreich und Großbritannien.

Das Konzept von Swapfiets ist einfach: Für eine monatliche Gebühr erhalten Swapfiets Mitglieder ein voll funktionstüchtiges Fahrrad oder Elektrofahrzeug für den eigenen Gebrauch. Wenn nötig, steht ein Reparaturservice ohne zusätzliche Kosten innerhalb von 48 Stunden zur Verfügung, um das Zweirad zu reparieren oder direkt gegen ein runderneueres, fahrtüchtiges Exemplar auszutauschen.

In Deutschland startete Swapfiets in 2018 und mobilisiert mittlerweile über 75.000 Mitglieder in Aachen, Berlin, Bonn, Braunschweig, Bremen, Dresden, Düsseldorf, Frankfurt am Main, Freiburg, Göttingen, Halle (Saale), Hamburg, Hannover, Heidelberg, Karlsruhe, Kiel, Köln, Leipzig, Mannheim, München, Münster, Offenbach, Oldenburg, Potsdam, Stuttgart und Wolfsburg.
