Safehaven Names Jacquie Ricketson as Business Resource Development Liaison

Stroke survivor and case management veteran brings 30 years' experience in clinical coordination and medical administration to Jimmy Simpson Foundation's brain injury program.

ROCK SPRING, Ga. (February 17, 2021) – Safehaven, a program of the Jimmy Simpson Foundation dedicated to providing quality care for individuals with brain injuries, has named Jacqui Ricketson, CWCP, as Business Resource Development Liaison, bringing her 30+ years of experience in the medical field to the organization.

In her new role, Ricketson will serve residents, their families, and Safehaven employees in various operational capacities, ranging from marketing to administrative duties.

“Having experienced a brain injury due to stroke at the age of 26, I have a very close personal connection to this field, and the care that Safehaven puts into creating a high quality of life for their residents has been extremely impressive to me. I’m eager to get to work serving residents and their families,” said Ricketson.

After experiencing a stroke at a young age, Ricketson devoted her career to healthcare, gaining experience as a Certified Workers Compensation Professional (CWCP) and working for a large case management company based in Atlanta.

“Jacqui’s experience and passion for serving brain-injured adults showed through immediately. We know that the impact of her work will be felt far and wide across our organization, and we couldn’t be more excited to welcome her to the Safehaven family,” said Vickie Hodge, CEO of Safehaven and the Jimmy Simpson Foundation.

When not working, Ricketson is an avid photographer and regularly participates in kickboxing and women’s self-defense classes.

About the Jimmy Simpson Foundation

The Jimmy Simpson Foundation is dedicated to providing the best quality care for the brain injury community. It was founded as a 501c3 organization by Carol Simpson after her husband, Jimmy, suffered an anoxic brain injury as a result from a fall out of a hospital bed after surgery. While searching for long term placement for Jimmy, it was difficult to find an environment that fostered individuality as well as provided a safe home environment. As with many non-profit organizations, the family saw a need within the brain injury community and stepped up to meet that need. More information is available at <https://www.safehavenjsf.org> or by calling (706) 438-8662.
