## **Wolt partners with Dott to Offer Free Monthly E-Scooter & E-Bike Rides to Wolt+ members across 8 countries**

**Helsinki - 22. April 2026** – Technology company Wolt today announced a major new partnership with leading European micromobility provider Dott, which has over 12 million users and 200,000 shared vehicles across 20 countries in Europe and the Middle East. The collaboration will bring free monthly e-scooter and e-bike rides to Wolt+ subscribers across eight countries, marking a significant evolution of its subscription programme. With this launch, Wolt+ expands beyond delivery into a broader urban lifestyle membership — extending its value proposition from food and retail into everyday transport.

Wolt+ members in Austria, Denmark, Finland, Germany, Greece, Hungary, Norway, and Poland will receive 30 minutes of free Dott ride time each month, usable on both e-scooters and e-bikes. The mobility benefit complements existing Wolt+ benefits such as 0€ delivery fees and other exclusive discounts. The announcement comes as Wolt+ surpasses 3 million subscribers, who have collectively saved more than €600 million since the programme launched in 2021.

The partnership marks Wolt's first large-scale integration of a third-party service directly into Wolt+, embedding mobility into the core membership experience and establishing a scalable model for future lifestyle integrations.

“Our goal with Wolt+ has always been to make everyday life simpler,” said **Marianne Vikkula, Head of Wolt**. “This partnership with Dott marks an important step in that evolution, expanding Wolt+ beyond delivery into a broader urban lifestyle membership. Everyone needs to eat and get around, and by partnering with Dott, we're bringing together food, shopping, and mobility in one offering — giving our customers more value across the things they use every day.”

**Maxim Romain, CEO & Co-Founder of Dott**, added: “We are incredibly excited to be joining European forces with Wolt. This partnership is a significant step in delivering on our mission of moving us closer, connecting our users with the places and food they love across key European markets. By integrating our micromobility services with Wolt's delivery platform, we're not just offering mutual benefits, we're creating a more seamless, valuable, and enjoyable daily life for people in our cities.”

## **How It Works:**

Wolt+ members can enable their monthly Dott benefit directly in the Wolt app by selecting "Connect with Dott." They'll be guided to link their accounts and complete activation in the Dott app (downloading it if needed), where the benefit appears as a free pass each month (Wolt+ Pass) ready to use. By tapping "Activate pass," members can unlock the benefit. Each month, Wolt+ members receive 30 minutes of free rides, valid from their monthly activation date through to their next renewal date. Passes are valid in any participating market and must be used within the country where they are activated.

## **About Dott**

Dott is the European champion of shared micromobility. Created through the merger of operators TIER and Dott in March 2024, the company decided to move forward under the single app and brand Dott.. With the mission of moving us closer, Dott facilitates easy urban travel, reduces pollution in cities, and decreases reliance on cars. The 200,000 Dott shared vehicles are today deployed in 400 cities and 20 countries across Europe and the Middle East. The 12 million users have generated over 500 million rides so far. The team is led by CEO Maxim Romain and Executive Chairman Henri Moissinac. For more information, visit [www.ridedott.com](http://www.ridedott.com)

## About Wolt

### About Wolt

Wolt is a Helsinki-based technology company with a mission to bring joy, simplicity and earnings to the neighborhoods of the world. Wolt develops a local commerce platform that connects people looking to order food, groceries, and other goods with people interested in selling and delivering them. Wolt was founded in 2014 and joined forces with DoorDash (NASDAQ: DASH) in 2022. Altogether, DoorDash operates in more than 40 countries today. You can read more on the [Wolt](#) website.
