## **Cessna Grand Caravan EX to feature new executive interior options, expanding opportunities for elevated missions**

WICHITA, Kan. (July 15, 2025) — The legendary [Cessna Grand Caravan EX](#) will now feature three new executive interior schemes for customers to select when designing their aircraft cabin. The Lunar, Obsidian and Saddle Sport interiors join the existing Canyon and Savanna schemes, providing a broader range of standard choices. The new interior options are available to customers starting this month and allow them to further tailor the interior of their aircraft based on their personal preference or mission.

The Cessna Grand Caravan EX is designed and manufactured by [Textron Aviation Inc.](#), a [Textron Inc.](#) (NYSE:TXT) company.

Premium versions of each of the new interiors are also available, featuring quilted seat stitching and plush carpet, providing an elevated aesthetic to the cabin.

“The Cessna Caravan family continues to prove its excellence as one of the most versatile aircraft in the industry,” said Lannie O’Bannion, senior vice president, Sales & Marketing.

“Drawing from direct conversations with customers, these cabin enhancements are designed to elevate comfort and provide a more enjoyable cabin experience.”

In addition to the enhanced flight deck announced last year for the Cessna Caravan and Grand Caravan EX, both aircraft will now include eight USB-C chargers on the cabin sidewall as standard features. Each charger includes two ports, providing a total of 16 charging points to keep passengers powered and connected in flight.

## **Celebrating 40 years of adventures**

The introduction of the new interiors aligns with the company's celebration of the [40th anniversary of the Cessna Caravan](#) single-engine utility turboprop. Aviation enthusiasts can view the new Lunar Premium interior cabin along with the added cabin USB-C plugs in the 40<sup>th</sup> anniversary Cessna Grand Caravan EX demonstrator aircraft which will be [at the company's static display \(Booth #78\) at EAA AirVenture in Oshkosh](#), Wisconsin, from July 21 to 27. This aircraft features a special paint scheme celebrating its 40<sup>th</sup> year of flight.

### **About the Cessna Caravan family of aircraft**

The Cessna Caravan and Grand Caravan EX cockpits currently feature Garmin's G1000 NXi avionics with the latest technology and connectivity.

The Cessna Caravan family of aircraft are versatile, highly practical aircraft used for a wide range of global missions, providing dependable service around the world for four decades. More than 3,100 Cessna Caravan aircraft have been delivered into more than 100 countries since the aircraft was introduced. With over 25 million flight hours amassed worldwide, Caravans fulfill roles for a multitude of missions, ranging from flight training to recreation, commuter airlines to VIP transport, cargo carriers and humanitarian missions. The Grand Caravan EX aircraft is known for its dependable and efficient performance by regional airlines, charter operators, cargo carriers and special missions operators worldwide. The aircraft offers an impressive output of 867 horsepower and a rate of climb of 1,275 feet per minute.
