

Citation Excel and XLS receive Garmin G5000 integrated flight deck certification

Textron Aviation Inc., a Textron Inc. (NYSE:TXT) company, today announced that the Garmin International G5000 integrated flight deck is now available for the Cessna Citation Excel and Citation XLS. The G5000 modernizes the cockpit, solves parts obsolescence and addresses mandate requirements, while also offering a lower cost of operation.

“The Citation Excel and Citation XLS continue to be two of the most popular business jets in the world,” said Kriya Shortt, Textron Aviation senior vice president, Global Customer Support. “The G5000 will modernize the cockpit to offer customers additional situational awareness, lower cost of operation and an improved in-flight experience in the aircraft they already know and love.”

The G5000 integrated flight deck for the Citation Excel and Citation XLS features three landscape-oriented displays with split-screen capability, intuitive touchscreen controllers, and geo-referenced Garmin SafeTaxi airport diagrams. New to the Citation Excel, emergency descent mode is available as a standard feature with the G5000 and is enabled by the autopilot in the event of a loss in aircraft pressurization. Additionally, operators gain access to more airports and lower approach minimums throughout the world as the G5000 has PBN/RNP 0.3 with LPV/APV approach capability.

The G5000 integrated flight deck upgrade is available immediately for Citation Excel and Citation XLS aircraft at Textron Aviation Service Centers and select Garmin dealers.

ABOUT TEXTRON AVIATION

About Textron Aviation

We inspire the journey of flight. For more than 90 years, Textron Aviation Inc., a Textron Inc. company, has empowered our collective talent across the Beechcraft, Cessna and Hawker brands to design and deliver the best aviation experience for our customers. With a range that includes everything from business jets, turboprops, and high-performance pistons, to special mission, military trainer and defense products, Textron Aviation has the most versatile and comprehensive aviation product portfolio in the world and a workforce that has produced more than half of all general aviation aircraft worldwide. Customers in more than 170 countries rely on our legendary performance, reliability and versatility, along with our trusted global customer service network, for affordable and flexible flight.
