

Textron Aviation announces new Aircraft Maintenance Data Hub for customers

Textron Aviation Inc., a Textron Inc. (NYSE: TXT) company, announced a new Aircraft Maintenance Data Hub for owners and operators of Beechcraft, Cessna and Hawker aircraft at this week's European Business Aviation Convention and Exhibition. The new data hub will be available in summer 2019 and will offer a more comprehensive record of all aircraft maintenance performed on Textron Aviation products by working with multiple industry tracking system providers.

“It’s important to our customers that they have a clear understanding and record of work done on their aircraft,” said Kriya Shortt, Textron Aviation senior vice president, Global Customer Support. “This new data hub will offer customers more choices in their tracking system and a comprehensive picture of maintenance records across all their Textron Aviation products.”

Textron Aviation named CAMP, Flightdocs, SierraTrax and Traxxall as recommended providers of aircraft maintenance tracking for the new data hub. While previously exclusive to CAMP, customers now have the flexibility to select the recommended provider that best fits their needs.

The data hub will be a new feature in the Textron Aviation Customer Portal. Customers will benefit from receiving a one-year free subscription from their choice of recommended provider for new and pre-owned aircraft purchased from Textron Aviation.

ABOUT TEXTRON AVIATION

About Textron Aviation

We inspire the journey of flight. For more than 90 years, Textron Aviation Inc., a Textron Inc. company, has empowered our collective talent across the Beechcraft, Cessna and Hawker brands to design and deliver the best aviation experience for our customers. With a range that includes everything from business jets, turboprops, and high-performance pistons, to special mission, military trainer and defense products, Textron Aviation has the most versatile and comprehensive aviation product portfolio in the world and a workforce that has produced more than half of all general aviation aircraft worldwide. Customers in more than 170 countries rely on our legendary performance, reliability and versatility, along with our trusted global customer service network, for affordable and flexible flight.
