Textron Aviation demonstrates industry leadership at EBACE 2019

Textron Aviation Inc., a Textron Inc. (NYSE:TXT) company, heads to next week's European Business Aviation Convention and Exhibition (EBACE) with eight of its industry-leading aircraft. Textron Aviation continued its 2018 market-leading position in the first quarter, delivering 88 jet and turboprop aircraft.

“Textron Aviation will arrive at this year’s EBACE as the leading general aviation manufacturing company with more deliveries in 2018 and the beginning of 2019 than any other manufacturer,” said Rob Scholl, senior vice president, Sales and Marketing.

“Textron Aviation led the European market in overall deliveries last year and continues to have the largest installed fleet in the region with more than 1,800 business jet and turboprop aircraft. During the show, we are excited to showcase our wide range of business, special mission and general aviation solutions, along with the continued investments we’re making to offer technologically-advanced products and dedicated sales and support solutions to our customers in the region.”

The company’s class-leading aircraft on display will include its new flagship, the Cessna Citation Longitude super-midsize business jet; a medevac-configured Cessna Citation Latitude midsize jet; and a Cessna Grand Caravan EX turboprop aircraft, 2018’s most popular turbine model, featuring the Garmin G1000 NXi avionics suite.

Other aircraft at the Palexpo static display area will include: a standard configuration Cessna Citation Latitude, the most delivered midsize business jet in Europe since 2016; a Cessna Citation XLS+ light midsize business jet, the most delivered Citation into Europe in the last five years; a Cessna Citation CJ3+ light jet; a Cessna Citation M2 entry level jet; and a Beechcraft King Air 350i turboprop aircraft. Also on display from Bell, a Textron company, will be a Bell 429 and Bell 505.
