

## Textron Aviation launches ProOwnership support solution

Textron Aviation Inc., a Textron Inc. (NYSE:TXT) company, today at the NBAA's Business Aviation Convention and Exhibition introduced ProOwnership, an operational support and turn-key Part 91 aircraft management solution available for Cessna Citation business jets and Beechcraft King Air products.

“The beauty of our ProOwnership program is that it can be fully customized to fit each customer’s needs, making owning and operating an aircraft as enjoyable and seamless as it should be,” said Brad Thress, senior vice president, Customer Service. “Between our team’s incomparable product knowledge, our commitment to service and our work to ensure a new owner’s seamless entry into service, Textron Aviation is more than an aircraft manufacturer. Our customers rely on us to be their trusted advisors throughout their ownership experience.”

ProOwnership’s customized solutions allow aircraft owners to use Textron Aviation’s expertise in nearly all aspects of aircraft ownership and operation. Services can include providing a Textron Aviation transition flight crew or pilot mentoring services, as well as selecting a home airport and hangar, trip planning, overseeing all maintenance events and providing concierge services.

### **About Textron Aviation Service**

Textron Aviation, through its Beechcraft, Cessna and Hawker brands, is renowned for its unrivaled global service network dedicated to complete life-cycle support. Textron Aviation’s support organization includes 21 company-owned facilities located around the world with expert service engineers offering maintenance, inspections, parts, repairs, avionic upgrades, equipment installations, refurbishments and other specialized services. In addition to its company-owned footprint, Textron Aviation’s jet and turboprop customers have access to a global network of nearly 200 authorized service centers. Textron Aviation also offers a mobile support program featuring more than 60 mobile service units, three dedicated support aircraft, and on-site service technicians and support.
