## Textron Aviation expands sales relationship with Chilean representative Aviasur

Textron Aviation Inc., a Textron Inc. (NYSE:TXT) company, today announced it has expanded its sales relationship with Aviasur NZ Limited Partnership (Aviasur) to include Cessna products. With this appointment, Santiago based Aviasur now offers the complete Beechcraft and Cessna product lines to the Chilean market.

“Aviasur has proven to be a strong partner for Textron Aviation,” said Bob Gibbs, regional vice president of Sales, Latin America and Caribbean. “Their reputation for providing excellent customer support will bring added value to our customers in the region as Aviasur’s offerings now represent both the Beechcraft and Cessna product lines.”

Aviasur has supported Beechcraft products as an authorized sales representative for over five years and an authorized service facility since 2012, providing quality customer support and service to the growing number of Textron Aviation customers in Chile.

Textron Aviation continues to lead in the Latin America jet market with over 800 Citation products in the region. As Aviasur continues to grow and strengthen the Textron Aviation fleet they can now offer the Cessna Citation Latitude, which offers customers a spacious and refined cabin environment, as well as the Cessna Citation M2, the perfect fit for owner pilots. Both aircraft are on display at the FIDAE International Air and Space Fair this week.
