

THE TEXTRON AVIATION FLIGHT ADVENTURE BRINGS AVIATION TO LIFE FOR A NEW GENERATION

**A community destination where families can connect, discover and share in
Wichita's rich aviation heritage**

The Textron Aviation Flight Adventure at Exploration Place brings Wichita's aviation story to life through hands-on discovery. Featuring a Beechcraft Staggerwing atop a control tower and an explorable Cessna Citation business jet, the attraction offers an up-close experience with aircraft that have deep roots in the community.

Before the Flight Adventure opened to the public, Textron Aviation employees and their families were among the first to explore the new space together.

For generations, Wichitans have carried forward a proud legacy of designing, building and supporting aircraft. The Flight Adventure celebrates that history through an approachable, tactile experience. Exploring the aircraft firsthand invites children to imagine where aviation could take them.

“Aviation is deeply connected to the people and history of Wichita,” said Maggie Topping, senior vice president, Human Resources and Communications. “The Flight Adventure gives families a new way to connect with that legacy while introducing more children to an industry that continues to shape our community.”

The Flight Adventure reflects Textron Aviation’s longstanding connection to Wichita and continued investment in the communities where its employees live and work. By creating a place for families to experience aviation together, Textron Aviation is helping share Wichita’s aviation heritage with the people who call the city home as well as those discovering it for the first time.

Ready to see it for yourself? Visit Textron Aviation Flight Adventure at Exploration Place and experience where imagination takes flight. Plan your visit [here](#).

About Textron Aviation

About Textron Aviation Inc.

We have been inspiring the journey of flight for nearly 100 years. Textron Aviation Inc., a Textron Inc. company, has empowered our collective talent across the Beechcraft, Cessna, Hawker and Pipistrel brands to design and deliver the best aviation experience for our customers. With a range that includes everything from business jets, turboprops, light and high-performance pistons, to special mission, military trainer and defense aircraft, Textron Aviation has the most versatile and comprehensive aviation product portfolio in the world and a workforce that has produced more than half of all general aviation aircraft worldwide. Customers in more than 170 countries rely on our legendary performance, reliability and versatility, along with our trusted global customer service network, for affordable, productive and flexible flight.
