"TRAINING IS LITERALLY WHAT WE DO": AVIATION WEEK TALKS U.S. NAVY TRAINING WITH TEXTRON AVIATION DEFENSE

Textron Aviation Defense President and CEO Travis Tyler recently spoke with Aviation Week about the company's Beechcraft M-346N integrated training system proposal for the U.S. Navy's Undergraduate Jet Training System and its confidence in delivering the advanced training capability the Navy has requested.

"The Navy ran a thoughtful and disciplined process," Tyler told Aviation Week. "They've been engaging industry for an extended period of time... and ultimately, in our opinion, offered a clear solicitation on what they were looking for."

"We chose to compete and submit a fully compliant proposal. Training is literally what we do," he said.
