

TEXTRON AVIATION EXPANDS AVIONIC MODERNIZATION UPGRADE AVAILABILITY FOR ORIGINAL CESSNA CITATIONJET AIRCRAFT

▲ Textron Aviation expands avionic modernization upgrade availability for original Cessna CitationJet aircraft

WICHITA, Kan. (September 22, 2026) – Textron Aviation today announced availability of an all-Garmin avionics retrofit solution for Cessna CitationJet aircraft, serial numbers 525-0001 through 0359, following Federal Aviation Administration (FAA) Supplemental Type Certification (STC).

Why it matters

- The certification expands Textron Aviation's investment in supporting legacy Cessna aircraft by extending its OEM-supported avionics modernization to the earliest CitationJet aircraft. The all-Garmin upgrade solution gives owners and operators access to advanced cockpit technology also available on the CJ1 and CJ2 while helping keep their aircraft capable, relevant and supported.
- The Garmin flight deck includes the G600 TXi flight display, TXi EIS, GTN 750Xi FMS/NAV/COMM and GFC 600 digital autopilot, along with features such as Stabilized

Approach monitoring and aural V-speed alerting during takeoff. Optional upgrades include the GWX 8000 StormOptix weather radar and GDL 60 datalink for the PlaneSync connected aircraft management system.

- Customers can complete the upgrade through Textron Aviation's service network, gaining access to OEM-backed service expertise while enhancing cockpit capability and extending the value of their aircraft. By combining certification, installation and ongoing support through a single provider, owners benefit from a modernization solution backed by the same company that designed, manufactured and continues to support the aircraft.

About Textron Aviation Customer Support

Textron Aviation, through its Beechcraft, Cessna and Hawker brands, is renowned for its unrivaled global service network dedicated to complete life-cycle support. In addition to its expansive company-owned footprint, Textron Aviation's customers have access to a global network of more than 300 authorized service facilities. Textron Aviation also offers a mobile support program featuring more than 40 mobile service units and on-site service technicians and support.
