

GTA Partners with Artspace Guåhan and Guam Green Growth for Second Annual MadCollab Event

(Tumon, Guam – May 21, 2026) GTA partnered with Artspace Guåhan and Guam Green Growth for the second annual MadCollab event hosted by Guam Time on Saturday, May 17, during the Tumon Night Market at Pleasure Island.

MadCollab is a community-driven creative collaboration event that brings together local artists, makers, organizations, and businesses to showcase art, sustainability, culture, and interactive experiences for the community. This year's event drew more than 7,000 attendees throughout the evening, creating a vibrant space for creativity, connection, and local collaboration in the heart of Tumon.

As part of the activation, attendees enjoyed free interactive activities including custom 3D-printed bag charms and a tote bag design station while supplies lasted. Artwork featured throughout the activation was created by local artists through Artspace Guåhan, highlighting Guam's creativity and artistic talent. Guam Green Growth also supported the event through tote bag sublimation activities.

Both Artspace Guåhan and Guam Green Growth are Empowered by GTA partners, with GTA providing support to help strengthen community initiatives and collaboration opportunities across the island.

This marks the second consecutive year GTA has participated in and sponsored MadCollab, continuing its support of local artists, sustainability efforts, and community-centered events that celebrate creativity and bring the island community together.

About GTA

GTA is Guam's leading telecommunications provider, delivering advanced connectivity solutions for residential, business, and government customers across the island. GTA's services include high-speed fiber internet, 5G wireless mobility, and advanced voice and data services for business and carrier customers that support critical infrastructure, enterprise operations, and everyday communications.

GTA operates secure, locally managed data center facilities on Guam and plays a key role in the island's digital ecosystem through ownership and operation of Guam's first locally owned cable landing station and data center in Piti. GTA operates three data centers, with its newest facility, GU3 in Alupang, set to be completed in Q1 2026. Together with its subsea cable investments and network infrastructure, these facilities strengthen Guam's position as a strategic digital gateway in the Pacific while ensuring reliable, resilient connectivity for the community.

Based in Tamuning, Guam, GTA is a U.S.-owned, locally managed company with nearly 75 years of service to Guam and a long-standing commitment to advancing the island's digital future.
