

GTA Continues Islandwide Network Restoration Following Super Typhoon Bavi

(Tamuning, Guam) Wednesday, July 8, 2026 - GTA teams remain out in the field as restoration efforts continue across the island following Super Typhoon Bavi.

On the second day of recovery, crews are completing damage assessments in Barrigada, Adacao, Maina, Asher, Yoña, and Santa Rita while continuing restoration work where it is safe to do so.

GTA's core network remains fully operational. As the Guam Power Authority continues restoring power across the island, additional GTA services will continue to come back online.

Some customers may also experience service interruptions due to storm damage to service lines. In those cases, an on-site repair may be required, and GTA technicians will respond to those locations as restoration efforts continue.

If service is still unavailable, please contact the GTA Call Center at 671-644-4482. Customers without island power should wait until power has been restored before troubleshooting their equipment.

GTA appreciates the community's patience and understanding as crews work to safely restore service as quickly as possible.

UPDATE AS OF 4:00PM, 7/08/2026

About GTA

GTA is Guam's leading telecommunications provider, delivering advanced connectivity solutions for residential, business, and government customers across the island. GTA's services include high-speed fiber internet, 5G wireless mobility, and advanced voice and data services for business and carrier customers that support critical infrastructure, enterprise operations, and everyday communications.

GTA operates secure, locally managed data center facilities on Guam and plays a key role in the island's digital ecosystem through ownership and operation of Guam's first locally owned cable landing station and data center in Piti. GTA operates three data centers, with its newest facility, GU3 in Alupang, set to be completed in Q1 2026. Together with its subsea cable investments and network infrastructure, these facilities strengthen Guam's position as a strategic digital gateway in the Pacific while ensuring reliable, resilient connectivity for the community.

Based in Tamuning, Guam, GTA is a U.S.-owned, locally managed company with nearly 75 years of service to Guam and a long-standing commitment to advancing the island's digital future.
