

ITB 2023 Recap

Last month, members of the Kautex Sustainability team traveled to Novi, Michigan for the [ITB Group Critical Technologies for Sustainable Vehicle Production 2023](#) Conference.

The first day of the conference featured a lecture from Global Director Energy & Sustainability, Sophie Louis with her topic: Paths to Tackle Scope 1-2-3 GHG Emissions Reduction Towards Final Carbon Neutrality.

Additionally, two team members were also able to attend. Below are their thoughts:

“My first ITB conference was a very positive and informative experience. It was great to be surrounded by like-minded individuals who are actively pursuing similar goals and I learned a lot about new developments for sustainability. Sophie did an excellent job representing Kautex as well. Looking forward to the next opportunity to showcase our advancements!”

“It was great to be back at the ITB Sustainability Conference again this year. The conference always provides an excellent atmosphere to learn more about new developments and products that could help Kautex improve our sustainability efficiency. It was a fantastic opportunity to meet Sophie, and she did an incredible job sharing Kautex’s sustainability journey.”

ABOUT KAUTEX

At Kautex, we are driving the future. As a Tier One automotive supplier with more than 30 plants in 13 countries, Kautex designs, develops and manufactures traditional and hybrid fuel systems, advanced cleaning solutions for assisted and autonomous driving, engine camshafts and plastic industrial packaging solutions. A pioneer in the design and manufacture of automotive plastic fuel systems, Kautex is expanding its portfolio to offer smart products and data-driven services to our customers, including thermoplastic composite and composite-metal hybrid battery systems. From a lightweight battery system to a hybrid fuel system to autonomous drive vehicle cleaning systems, Kautex is committed to pioneering solutions for the era of new mobility.

Our employees are part of a global community committed to solving customer needs, leveraging diverse skillsets, making sustainability a differentiator, embracing the diversity that is part of a global, multi-industry leader and creating an environment where employees can build a dynamic career. Together, we are reimagining the future of mobility.

About Textron Inc.
