# An Anime-Themed Candlelight Concert Is Coming To Scottsdale This Week For One Night Only

**Two shows of Candlelight: Favorite Anime Themes to take place on September 2 at the Butterfly Wonderland Theater during an Anime-filled week**

**Phoenix, August 29, 2022** - Phoenix has been home to many Candlelight Concerts in the last few years, and having already delighted audiences in more than 80 cities worldwide, including Madrid, London, Paris, New York and Los Angeles, Fever's Candlelight series is bringing a special night of Anime music to the city of Scottsdale in September.

Happening during the same week as Saboten Con, the Favorite Anime Themes rendition of the Candlelight Concert will feature two shows on September 2nd, calling Phoenix's Anime fans and all music lovers to a night of Anime music and celebration performed by the Listeso String Quartet and hosted at the stunning Butterfly Wonderland Theater.

Primarily a butterfly conservatory, the theater will be dimly lit by thousands of candles while the greatest hits of Anime from series such as Dragon Ball, Demon Slayer and Naruto fill the habitat of thousands of butterflies. Guests can fully immerse themselves in the music that accompanies the many adventures in popular anime series.

Candlelight is a Fever Original concept that aims to create an accessible and ambient space to enjoy the works of the greatest classical composers such as Vivaldi, Mozart and Beethoven. The programmes have now grown to include modern compositions such as The Beatles Queen, ABBA, Coldplay, and popular movie soundtracks. Since its launch in 2019, Candlelight Concerts have been performed in unique venues worldwide, from churches to libraries to mansions and other historic landmarks that form part of each city's cultural heritage.

Candlelight is brought to you by Fever, the leading global entertainment discovery platform. By creating a network of talented local musicians in each city, Fever has been able to provide a platform for these artists and in turn bring classical music to an entirely new demographic. With the objective of democratizing the culture and bringing unique experiences to the masses, Fever's platform enables its 80 million users to discover new experiences in their cities.
