Manchester, 17th January 2023 - Having taken UK cities of Edinburgh and Liverpool by storm, 360° will return once again to the city in which it first landed, Manchester, on February 10th 2023.

The party series brings electronic music lovers a unique way of experiencing house, techno and disco sets against the most incredible of backdrops. Conceptualised by Fever in collaboration with JBM Music, these one-of-a-kind events promise a visual spectacle in which there is always a 360° element. This, combined with mesmerising light shows and a state-of-the-art sound system creates an incredibly immersive sensorial experience.

For its highly anticipated return to Manchester, the 360° experience will be held in the city's historic Cathedral, a striking, Grade I listed building with origins in the 13th century.

Partygoers will dance to disco sounds on a beautiful marble dance floor surrounded by the stunning architecture of this national heritage site.

360° events are known for showcasing the scene's most iconic DJs, and Manchester's February event will be no different, headlining none other than house music legends: The Shape Shifters. The English-Swedish dance music duo - who have been at the forefront of electronic scene for 15 years - have released and remixed numerous commercial and underground hits including Lola's Theme, Back to Basics, Incredible, as well as working with artists such as George Michael, Nile Rodgers & Chic, Christina Aguilera, Madonna and more.
