

START YOUR ENGINE: A NEXT-GENERATION IMMERSIVE EXPERIENCE MAKES ITS GLOBAL DEBUT IN SYDNEY

Sydney, Australia | August 2026 - Step into Karts District, a high-speed world where real racing, gameplay and competitive socialising meets augmented and virtual reality in a fully interactive and immersive adventure, opening for the first time across the globe in September.

The future of entertainment is here as Karts District, a world-first, next-generation, immersive racing and gaming precinct, is set to open in North Sydney on September x, 2026 at Greenwood Plaza. Featuring real-world karting with augmented reality, digital gameplay and virtual simulations, Karts District is the ultimate dynamic, social and fully interactive experience.

Tickets are available at <https://kartsdistrict.com/>

Following the rapid evolution of immersive entertainment, Karts District introduces a bold new category where physical competition and digital innovation collide. Designed for players of all skill levels, it offers a high-energy environment where speed, strategy and competition come together in a re-playable gameplay format.

It's time for Aussies to drop the controller and grab the wheel. Karts District brings the kart racing games players grew up with into real life. With real karts, real tracks and immersive digital gameplay layered into every race, the experience transforms players from spectators into active participants inside a living video game. Every race becomes part of a larger game where players don't just drive, but compete, engage and unlock new experiences with every session. Adding a nostalgic gaming twist, players can activate classic arcade-inspired features including interactive "power-ups", where collecting coins triggers a real burst of speed on the track.

Beyond its headline go-kart racing track, Karts District offers a completely immersive entertainment precinct with an exciting lineup of high energy, interactive VR and gaming activations throughout the 1,200 square-metre venue. Boasting a raft of high-speed thrills, competitive gameplay and futuristic escapades, Karts District delivers something for absolutely everyone, including:

- X-Space: a 100 square metre free-roam VR arena where up to six players can battle together in virtual worlds. Featuring full body tracking and 360-degree gameplay, players can move freely through a series of sci-fi and fantasy-inspired missions designed around teamwork, strategy and adrenaline fuelled action.
- Beat Hero: an immersive VR simulator that challenges players to survive waves of enemies through cooperation, rhythm and skill. Beat Hero is a dynamic gaming experience where no two sessions feel the same, encouraging players to refine their skills, improve their coordination and take on tougher challenges with each attempt.
- Space Ride: a futuristic, six seat VR 'cinema pod' that transports players through cinematic space-travel adventures using VR technology and motion simulation effects. Designed to replicate the sensation of space travel and high speed adventure, Space

Ride features synchronised motion seating and immersive surround visuals for an out-of-this-world adventure.

- Race Simulator Zone: an arcade style racing and flight simulation experience across a triple screen setup, perfect for motorsport and aviation enthusiasts. Players can choose between high speed car racing or flight simulator experiences, with realistic controls, panoramic visuals and responsive gameplay recreating the thrill of competitive driving and aerial maneuvers.
- Flying Cinema: a dynamic double-seat VR activation with 360 degree rotations, rollercoaster-style motion effects and high definition 4K visuals. Equipped with advanced safety harness systems, Flying Cinema is a spectacular airborne adventure that simulates the sensation of flying through virtual worlds.

Karts District is more than a racing venue. It is a social playground where friends, families, coworkers and colleagues can come together through shared adrenaline and friendly competition. Perfect for group outings, celebrations and corporate team-building events, Karts District creates an environment where competition fuels connection and every race becomes a shared memory.

Accessible to both beginners and experienced thrill seekers alike, Karts District offers a balanced mix of skill, strategy and fun, ensuring every participant can engage at their own level while still feeling part of the action.

Part of Fever's growing portfolio of immersive experiences, Karts District reinforces the company's mission to democratise access to the extraordinary, bringing innovative, high-impact experiences to audiences around the world.
