

DINOS ALIVE: THE IMMERSIVE EXPERIENCE

World-touring dinosaur spectacular makes its Brisbane debut at Fever Skygate

Brisbane | April 2026 - Exhibition Hub, the leader in immersive digital art experiences, in partnership with Fever, the leading entertainment discovery platform, announce that Dinos Alive: The Immersive Experience will open to Brisbane for the first time on May 2nd at Fever Skygate | Exhibition and Experience Centre. Tickets are now available [here](#).

Following a global success with over 1 million tickets sold worldwide, and a roaring success around Australia, Dinos Alive invites visitors to step back in time and walk among the creatures that ruled the Earth for more than 140 million years. The 45-to 75-minute experience features more than 80 famous dinosaur specimens – including the fearsome Tyrannosaurus Rex, the imposing Triceratops, and the small but ferocious

Velociraptor, and many more – brought to life through cutting edge animations, immersive scenic installations and moving, realistic replicas.

Highlights include a breathtaking virtual aquarium that plunges visitors into the depths of the ancient seas alongside formidable marine predators like the Mosasaurus, that ruled the oceans of yore, as well as faithfully recreate the Mesozoic era, complete with walking, swimming, and flying giants. Every element of the experience is designed to not just be visually spectacular but emotionally transporting.

The experience also has a strong educational dimension. A dedicated kids' zone lets young aspiring palaeontologists try their hand at fossil excavation and discover the science behind these extraordinary creatures, making it the perfect outing for families, school groups and dinosaur enthusiasts of all ages.

Philippe Mallet, Head of APAC Fever, speaks to the experience: “For generations, dinosaurs have captured the collective imagination. These prehistoric giants have become an integral part of pop culture thanks to iconic films like the Jurassic Park saga and animated series like Dinosaurs. Dinos Alive: The Immersive Experience offers the chance to relive these emotions, but in an even more intense and immersive way, bringing viewers face to face with the creatures that have fascinated millions of people around the world. We can't wait to see what Brisbane thinks.”

Dinos Alive is the first of many new entertainment offerings coming to Fever Skygate this year, as the precinct continues to evolve beyond a dining and retail destination into an expanded entertainment hub for locals and visitors to Brisbane. Strategically located near Brisbane Airport, Fever Skygate offers ample free parking and easy access to arterial roads.
