

Qatar Executive Delivers Fleet-Wide Starlink Connectivity

Fleet-wide Starlink connectivity now available across Qatar Executive's ultra-long-range fleet

DOHA, Qatar – Qatar Executive, the private jet charter division of Qatar Airways Group, has successfully completed the installation of Starlink Wi-Fi across its entire ultra-long-range fleet of Gulfstream G700 and Gulfstream G650ER aircraft, further strengthening its position as a leader in private aviation and reinforcing its commitment to investing in the latest technology for its clients.

With Starlink, Qatar Executive passengers can enjoy fast, low-latency internet connectivity throughout their journey, enabling uninterrupted video conferencing, streaming, messaging and business productivity, even on the world's longest routes. In many cases, onboard connectivity performance rivals or exceeds that experienced in

homes and offices on the ground. Starlink's global coverage provides a seamless online experience across oceans, remote regions and international air corridors.

The milestone follows an extensive fleet enhancement programme, with the majority of installations completed in-house by Qatar Executive Engineering and Qatar Airways Maintenance, Repair and Overhaul (MRO) teams. The project reflects the technical capability, operational expertise and collaborative strength found across the Qatar Airways Group.

As one of the world's leading operators of ultra-long-range business jets, Qatar Executive continues to invest in technologies that enhance both operational performance and passenger experience. Its modern fleet, led by the Gulfstream G700 and G650ER, is specifically designed to connect major financial centres, business hubs and leisure destinations across the globe through non-stop long-haul and ultra-long-range missions.

The completion of Starlink installation marks another significant step in Qatar Executive's fleet modernisation strategy. By combining one of the youngest and most advanced fleets in business aviation with next-generation connectivity, Qatar Executive continues to set new standards for private aviation, ensuring passengers can travel further, work smarter and remain connected throughout every stage of their journey.

About Qatar Executive

Qatar Executive is the private jet charter division of the Qatar Airways Group. Private jet charter services are available worldwide on board the operator's wholly-owned business jet fleet. The fleet, including the Gulfstream G700 and G650ER, operates on a floating fleet concept, repositioning aircraft as required around the world to meet customer demand while minimising positioning flights between customers.

Managed by a highly professional team operating 24 hours a day, seven days a week, Qatar Executive is ready to arrange every detail of its customers' journeys with proficiency and passion. Qatar Executive's service portfolio also includes aircraft management, maintenance support and fixed-base operator services.

About Qatar Airways

A multiple award-winning airline, Qatar Airways continues to be synonymous with excellence, receiving for the 13th time Skytrax's 'World's Best Business Class' award, and the 'World's Best Business Class Airline Lounge' for the eighth time.

Along with continuing to retain its 5-Star Airline Rating, Qatar Airways has received a global-first recognition of the 'World's Best Onboard Wi-Fi' by Skytrax this year. The accolade recognises Qatar Airways' Starlink connectivity rollout on 170 widebody aircraft, connecting more than 31 million passengers to date with up to 373 daily Starlink-enabled flights. Globally, Qatar Airways remains the unprecedented nine-time winner of Skytrax 'World's Best Airline' title.

This winter, Qatar Airways is flying to over 170 destinations worldwide, connecting through its Doha hub, Hamad International Airport. The airport has been previously recognised as the 'Best Airport in the Middle East' for 11 consecutive years, as well as 'World's Best Airport Shopping' for the third year in a row by Skytrax. Hamad International Airport has previously been named the 'World's Best Airport' by Skytrax three out of the past six years.

Qatar Airways received the 2025 Platinum performance recognition by Cirium, the leading aviation analytics organisation, for its reliability and operational performance. The recognition is a testament to the airline's unwavering commitment to providing seamless and proven operations as part of its award-winning passenger experience.

Qatar Airways was the first Airline in the Middle East to be certified to the highest level of IATA's Environmental Assessment (IEnvA) programme, based on recognised environmental management system principles, including the ISO 14001. As an inaugural signatory to the Buckingham Palace Declaration in March 2016, Qatar Airways became the first airline globally to be certified to the industry standard for the prevention of illegal wildlife trafficking in aviation.
