

Qatar Airways to Increase Operations to Dubai with Five Daily Flights

From 5 June 2026, frequencies to Dubai will gradually increase from two to five daily flights

DOHA, Qatar – Qatar Airways continues to increase its capacity between Qatar and the United Arab Emirates (UAE) by gradually expanding frequencies between Hamad International Airport (DOH) and Dubai International Airport (DXB) from two to five daily services, starting 5 June 2026.

The additional frequencies will be introduced in phases to meet growing demand and provide greater flexibility for passengers travelling between the two cities. The existing two daily flights will be increased to three daily flights effective today, followed by the introduction of the fourth flight from 15 June, and a fifth daily flight resumed during the summer season. The flights will be operated on Boeing 777 and Airbus A350 aircraft.

This expansion reinforces Qatar Airways' commitment to enhancing connectivity within the region and supporting both business and leisure travel between Qatar and the United Arab Emirates with up to 35 weekly flights.

Qatar Airways has been steadily restoring its network across the Middle East and is currently operating to over 20 destinations in the region. Providing passengers convenient and seamless connectivity, the airline resumed operations to Dubai (DXB) and Sharjah (SHJ) in April, and restarted flights to Abu Dhabi (AUH) in May.

Building on this momentum, Qatar Airways is continuing the phased restoration and expansion of its global network to over 160 destinations by this summer.

The airline advises passengers to regularly check its official website or app, and ensure their contact details are correct and updated.

Please note that flight schedules are subject to change or cancellation due to operational, regulatory, safety, or other circumstances beyond our control.

For booking-related assistance, please visit the Qatar Airways' FAQs page.

About Qatar Airways

A multiple award-winning airline, Qatar Airways won the 'World's Best Airline' title for an unprecedented ninth time at the 2025 World Airline Awards, managed by the international air transport rating organisation, Skytrax. Qatar Airways was previously named the World's Best Airline in 2011, 2012, 2015, 2017, 2019, 2021, 2022, and 2024.

The airline continues to be synonymous with excellence, and has yet again received recognition for 'World's Best Business Class', and 'World's Best Business Class Airline Lounge'. As the leading connector in the region, Qatar Airways has also been lauded with the 'Best Airline in the Middle East' title for the 13th time.

Qatar Airways recently received the Platinum performance recognition by Cirium, the leading aviation analytics organisation, for its reliability and operational performance. The recognition is a testament to the airline's unwavering commitment to providing seamless and proven operations as part of its award-winning passenger experience.

This summer, Qatar Airways will fly to over 160 destinations worldwide, connecting through its Doha hub, Hamad International Airport. The airport has been recognised as the 'Best Airport in the Middle East' for 11 consecutive years, as well as 'World's Best Airport Shopping' for the third year in a row by Skytrax. Hamad International Airport has previously been named the 'World's Best Airport' by Skytrax in 2021, 2022, and 2024.

Qatar Airways was the first Airline in the Middle East to be certified to the highest level of IATA's Environmental Assessment (IEnvA) programme, based on recognised environmental management system principles (such as ISO 14001). As an inaugural signatory to the Buckingham Palace Declaration in March 2016, Qatar Airways became the first airline globally to be certified to the industry standard for the prevention of illegal wildlife trafficking in aviation.
