ROADLITE:ON – RACING FAST, CITY SMART

At Canyon, when it comes to e-bikes, we don't believe in compromise.

So when it came to creating our first high-performance e-hybrid, it had to tick all the boxes.

It had to look like a Canyon – because everyone loves a beautiful bike.

It had to feel like a Canyon – because if it ain't fun, we won't put our name on it.

It had to go like a Canyon – because we're proud of our performance heritage, which we build into every bike we make.

Enter the Roadlite:ON.

A bike that took Canyon's signature road design DNA, combined it with a dose of e-bike speed, and made it all available in a flat-bar package that's easy-to-ride, lightning-fast, and a blast to ride around town.

From high-tempo workouts to casual city cruising, the Roadlite:ON is the e-hybrid bike for riders who wanted to make their moves. Their way. When they want.

Unlimited freedom. Through incredible performance.

ROADLITE:ON 8 LTD – SLICKER, QUICKER, BETTER

Now we're proud to introduce a limited-edition bike that takes everything that made the Roadlite:ON great. And turns it up to 11.

The Roadlite:ON 8 LTD is here.

It's go time.

AESTHETICS – CITY SLICK IN ALL-WHITE

Clean, crisp, fresh. The Roadlite:ON 8 LTD looks as fast as it goes.

INCREDIBLY LIGHT – ONLY 15.6 KG

Stay versatile, ride agile, carry your bike anywhere.

A SMOOTHER, MORE POWERFUL MOTOR

Now with FAZUA's latest all-new RIDE 60 drive unit.

ERGONOMICALLY OPTIMISED

Get more control with easier charging, simple connectivity, and premium parts.

A SILKY-SMOOTH MOTOR WITH REAL POWER

The Roadlite:ON 8 LTD is powered by the rider and FAZUA's cutting-edge RIDE 60 drive system.

The system engages seamlessly when you start to pump the pedals, and its light-touch background support enhances your own effort, rather than delivering a high-torque surge. It's smooth, it's powerful, it feels natural – and it's fast.

And thanks to its slimline form and low 4.3 kg weight, the motor seamlessly integrates into the frame – giving the bike all the poise, agility, and aesthetic elegance you expect from a Canyon.

The drive system is incredibly versatile, too. We spec a 430Wh battery so you get the juice you need to keep pushing the pace all day long. And when it's time to dismount, an extra Walk Assist mode lets you push your bike uphill easy with the click of a button.

THREE SUPPORT MODES

Switch between 3 preset riding modes with the flick of a handle-bar-mounted switch:

- Breeze (green) get a gentle, consistent tailwind even with low pedalling power.
- River (blue) high-performance mode that matches your effort – the harder you pedal the more support you get.
- Rocket (red) get a surge of power to smash steep climbs.

EASIER CHARGING

The charging port is integrated on the bike: just plug in and charge. Or remove the battery in seconds and charge it at your desk.

The FAZUA RIDE 60 battery takes approximately 3.5 hours until it's fully charged again.

PERSONALISE YOUR RIDE

The FAZUA App is the brain of the FAZUA RIDE 60 drive system, giving you even more control over your ride. You can tune precisely how your motor support should feel in different modes. And switch different profiles as and when your needs change to create your own tailor-made riding experience in any situation.

MOBILE PHONE MOUNT

Want to use your mobile to navigate as you ride? With the Roadlite:ON 8 LTD, it's so easy. Thanks to the practical, stable SP Connect mount – delivered with the bike as standard – you can attach your smartphone in seconds. All you need is an SP Connect case for your phone. And you can even charge your phone as you ride, thanks to an integrated USB-C port.

The entire cockpit is clean, sleek, and beautiful. And for a more aggressive riding position, you can remove a 10 mm spacer without dismounting the cockpit or shortening the steerer tube.

CARBON COMFORT COMPONENTS

For extra comfort, the Roadlite:ON 8 LTD uses vibration-absorbing carbon fibre parts that dampen road buzz as you ride.

In combination with the bike's thicker 40mm tyres, it's like a magic carpet ride over the asphalt.

FRONT-END COMFORT: CARBON FORK

The bike's fork is manufactured from stiff, light, high-end carbon. It soaks up small vibrations as you ride, keeping your hands more comfortable for longer. And it also gives you incredible steering precision, thanks to its superior stiffness.

REAR-END COMFORT: CARBON SEATPOST

We combine it with our very own carbon seatpost featuring comfort-boosting VCLS technology. The revolutionary leaf spring design absorbs shocks, vibrations and road buzz, for a smoother ride with no drawbacks in terms of stability.

HIGH-PERFORMANCE PARTS

The Roadlite:ON isn't just about looks. It has the go factor, too. Thanks to its high-end, high-performance components.

GEARS: SHIMANO DEORE XT

Shimano's Deore XT gearing is simply superb. Proven in the all-action world of mountain bike racing, it's been a firm favourite amongst riders for decades, thanks to its incredible durability, reliability, and precision.

With this gearing system you can fly through the city and spin up steep hills easy. And the 1x12 set-up is simple and intuitive to use, too.

BRAKES: MAGURA MT 30

These high-grade Magura brakes give you powerful, reliable, precise stopping power in all weather conditions. And the ergonomic grips give you a safe and secure, hold on the bar when you need it most.

CONSISTENT HANDLING FOR ALL RIDERS

With four frame sizes (S–XL), riders from 150 cm to 210 cm can get a Roadlite:ON that fits. And to create consistent riding dynamics and fit, we fit smaller 650B wheels on size S bikes.

Put simply, the rider gets the frame and wheel size that is perfectly suited to them.

FAQ

WHEN DOES THE EMBARGO ON THE ROADLITE:ON 8 LTD EXPIRE FOR JOURNALISTS TO PUBLISH STORIES AND PHOTOS FROM THIS PRESS LAUNCH?

The embargo will end on **21 April 2022 at 11:00CEST**. After that, the bike will be visible on our website and journalists and media are encouraged to publish their stories and reviews. The Roadlite:ON 8 LTD will be available for purchase in August 2022.

WHAT'S THE MAXIMUM AMOUNT OF WEIGHT I CAN PUT ON THE BIKE?

The maximum total weight (rider + bike + equipment) is 130 kg.

HOW MUCH WILL THE ROADLITE:ON 8 LTD COST?

Roadlite:ON 8 LTD will cost €3,799.

That's the standard eurozone price – this figure may vary from country to country.

HOW MANY SIZES ARE ON OFFER?

The Roadlite:ON 8 LTD is available in sizes S-XL, covering riders 150–210 cm tall.

THE NEW ROADLITE:ON 8 LTD USES THE FAZUA RIDE 60 DRIVE SYSTEM. WHY?

We chose the FAZUA system because we believe it finds the best balance between smooth power, compact design, lightness, and natural-feeling pedal assist.

HOW FAR CAN I RIDE ON A SINGLE CHARGE?

Speed, terrain and total weight (rider + bike + equipment) all have an effect on the total range.

The maximum range in Breeze, the lightest support mode, is 120 km.

CAN YOU CHARGE THE BATTERY WITH IT BOTH ON AND OFF THE BIKE?

The battery can be charged directly on the bike or be removed and charged separately.

HOW LONG DOES IT TAKE TO CHARGE A TOTALLY DRAINED BATTERY?

The 430 Wh battery takes approximately 3.5 hours for a full recharge.

CAN I ADD A TRAILER?

Yes, simply mount the Croozer trailer adapter available on the Canyon website.

CAN I ADD A CHILD SEAT?

The Roadlite:ON 8 LTD does not officially support child seats.

WHAT SMARTPHONES ARE COMPATIBLE WITH THE COCKPIT?

You can mount any smartphone. You just need to need to buy an SP Connect case that fits your phone model from the Canyon webshop.

WHERE CAN I DOWNLOAD THE FAZUA APP?

The FAZUA App is available in your smartphone's app store.

DO I NEED THE FAZUA APP TO USE THE BIKE?

No, you can ride the bike without connecting it to your smartphone.

WHAT'S THE MAXIMUM TYRE CLEARANCE?

The Roadlite:ON 8 LTD has clearance for 40 mm tyres.

CAN I MOUNT MUDGUARDS?

The Roadlite:ON 8 LTD fits our purpose-designed mudguards, made in collaboration with Curana.

They are available on the Canyon webshop.
