NATURE CALLING

EXQUISITE EXPLORATION: ADVENTURES MADE REAL

Balmy summer evenings, rolling green landscapes, the smell of woodsmoke after a day-long tour: this is what we live for.

At Canyon, we do two things extremely well: making great bikes, and endlessly exploring on them. Our time in nature is made for sharing, and this is precisely what the Pathlite:ON 9 LTD SUV is kitted up for. Your kids in the Croozer, your picnic in the panniers, or your overnight gear strapped to the rack: whatever your call, this bike has the answer.

GET OUTDOORS

The limited-edition Pathlite:ON 9 LTD SUV is a companion bike. It takes the combination of sport, function, and adventure native to the Pathlite:ON family by the horns – and then throws in outrageously decadent extra features for that extra helping of innovation, premium technology, and superior handling.

The Bosch Performance CX motor with Smart System, clever ABS tech and an enormous integrated 750 Wh battery breathes "gold standard". A dropper suspension seat post and Maxxis mountain bike tyres provide ultimate comfort and freedom of movement. Paired with super-precise wireless shifting from SRAM, you're sailing. You've got two frame choices. The elegant step-through frame

is easier to get on and off, even when the bike is fully weighed down with supplies. And the step-over frame is a beautiful example of bold, dynamic bicycle design at its very best.

Not made to sit in the shed, this bike is to be ridden enthusiastically on the chop and change of mother nature. A stunning bike with a huge range of features requires no cautious approach.

**DISCOVER THE PATHLITE:ON
9 LTD SUV**

From the e-Drive system to the gearing to the display options.

The Pathlite:ON 9 LTD SUV is kitted to the nines.

SMART TECHNOLOGY THAT TAKES CARE

EVERYTHING IN PLAIN VIEW

How fast are you riding? Where are you? What are your fitness stats? All this data, just a glance away. The Pathlite:ON 9 LTD SUV gives not one, but two choices of display options on the handlebars: the Bosch Kiox 300 or SmartphoneGrip.

The compact Bosch Kiox 300 delivers the all-round experience in smart riding. It shows you your route and the bike's battery charge level via a crystal-clear colour display. The SmartphoneGrip gives you the option to securely clip

your smartphone to the handlebar mount: just download the eBike Flow App to your smartphone to see your current speed, battery charge, ride time and distance. The eBike lock function, navigation, and your fave apps such as Komoot and Strava are included on screen, too.

Connect the LED Remote control unit on the with the eBike Flow app to control all functions of the Smart System. From this, you can call up your data on your display of choice with a flick of the thumb. Whichever display you choose; you'll have everything you need in front of you.

HIT THE TRACKS

Stop for an ice cream. Glide through fields. Wind through the forests.

Freedom is about jumping on the saddle whenever, carefree. The Pathlite:ON 9 LTD SUV makes it effortless with its super smart features. Wireless electronic gear shifting, a mega-powerful battery and motor, an anti-lock braking system (ABS), and clever anti-theft technology with pinpoint GPS takes the stress out of owning an expensive piece of gear.

LIMITLESS JOY

An integrated 750 Wh battery capacity makes those mega-long adventures possible. No charging complications, either: you can charge the battery directly on the bike.

OVER-THE-AIR SHIFTING

Originally developed for world-level racing, the 12-gear electronic wireless shifting is one of SRAM's fastest and most precise groupsets ever. No cables or wires to set up and maintain either. Ideal. And charging? Super easy: just remove the little batteries and power them up with the included charging box.

TOTAL PEACE OF MIND

Don't let the thought of theft stop you from getting your dream bike.

Linking your choice of display with the Bosch eBike Flow app gives plenty of perks – one of which is Bosch's anti-theft technology for free additional protection. Just connect your bike with the app and enable the eBike Lock and the eBike Alarm function. Your smartphone acts as your digital key to the bike. Recognition takes place automatically via Bluetooth, so your smartphone can stay in your pocket – you'll know when it's worked thanks to short jingly tones, lights, and flashing symbols.

BOSCH ABS: SAFE STOPPING

Armoured with the Bosch Performance Line CX Smart System, this bike has everything. The ingenious Bosch eBike ABS is automatically enabled when riding above 6 km/h, and smartly regulates braking performance on any terrain and slippery surface. This significantly lowers the risk of the rear wheel lifting or the front wheel sliding out from underneath you if you suddenly slam on the brakes. Together with the bike's accurate, powerful brakes, this is a combo that keeps you in control at all times.

EXPLORE YOUR WAY

Dawn-to-dusk bike packing. Weekend trips away. Cross-country landscapes.

The Pathlite:ON 9 LTD SUV takes you further into nature through total ease of use.

YOUR FRAME, YOUR CHOICE

Choose between a classic step-over and an effortless step-through. The standard step-over flaunts the classic diamond-shaped frame design known and loved throughout history. The elegant step-through frame is easier to get on and off, even with a rear rack loaded with camping gear and your kid(s) in the trailer.

PROTECT YOUR POSTURE

Designed with long-lasting comfort in mind, the sitting position on the Pathlite:ON 9 LTD SUV is more upright than some of our sportier bikes. For those who prefer that sportier position, the handlebar is easy to adjust. Just remove the 10 mm spacer.

That isn't the only adaptable component on the bike, either: you can also conveniently drop or raise your seat remotely via the handlebar. That means easier mounts and dismounts, and more room for movement on tricky descents.

SIT COMFORTABLY

The dropper suspension seat post takes the sting out of jarring surprises in the dips and dives off-road. Vibrations and bumps are smoothed out thanks to unparalleled stiffness and grip from the Suntour MOBI E35 EVO AIR 100 mm suspension fork and Speed Lockout function.

SEE AND BE SEEN

Mega-bright lights are integrated on the front and rear to make sure you get home safe, without having to faff around with removing the lights after every ride. The M99 Mini Pro 25 is a stunner with a bonus: activate the high beam function from the handlebars to cover a wide area for ultimate peripheral vision, even on dark cycle lanes in the rain. On the rear, a Supernova E3 Tail Light 2 keeps you nicely visible to other road users.

GREAT EXCURSIONS, EVERY TIME

Widen the scope for adventure with clever luggage and cargo options. With a rear rack holding up to a whopping 25 kg with additional coupling for a trailer, you can bring your gear, picnic basket, dog, and kids along. Maybe even throw in your second cousin twice removed while you're at it.

FENDERS & RACK

A sturdy set of fenders keep mud splatters at bay in case of sudden showers or pelts of rain. An Ortlieb QL3.1 compatible rear rack makes bringing your supplies a breeze. Tent, rain clothes, shopping – whatever you want to bring, just clip on the pannier bags, drop it all in and go.

And? By adding the compatible nut hitch to clip on your Croozer, you've got a convenient and sustainable touring bike designed for any form of transport. Let's go.

FAQ

WHEN DOES THE EMBARGO EXPIRE ON THE PATHLITE:ON 9 LTD SUV SO THAT JOURNALISTS CAN PUBLISH STORIES AND PHOTOS FROM THIS PRESS LAUNCH?

The embargo will end on 07/03/2023 at 11:00 CEST when the bike becomes available on our website. After that, journalists and media are encouraged to publish their stories and reviews.

WEIGHT AND STORAGE

WHAT IS THE MAXIMUM AMOUNT OF WEIGHT I CAN PUT THE BIKE?

The maximum total weight (rider + bike + equipment) for the Pathlite:ON 9 LTD SUV is 140 kg. If you attach the Croozer trailer, you can carry an additional 50 kg.

WHAT IS THE MAXIMUM AMOUNT OF WEIGHT I CAN PUT ON THE REAR RACK?

The rear rack holds 25 kg.

CAN I MOUNT A TRAILER TO THE BIKE?

Yes. By changing the left rear hub axle but to the Croozer adapter (available on the website) you can add a trailer mount.

CAN I ADD A CHILD SEAT?

It is not possible to add a child seat to the Pathlite:ON 9 LTD SUV.

BATTERY, DISPLAY AND RANGE

HOW MANY KM CAN I RIDE ON A FULL BATTERY CHARGE?

You can ride up to 125 km. Speed, terrain, and total weight (rider + bike + equipment) all influence the total range.

DO YOU HAVE TO TAKE THE BATTERY OUT OF THE BIKE TO CHARGE IT?

The battery can be charged directly on the bike or removed and charged separately. To remove the battery, just slide it out from the bottom of the downtube.

HOW LONG DOES IT TAKE TO CHARGE A TOTALLY EMPTY BATTERY?

The 750 Wh battery takes 2 hours to get to 50%, and approximately 6 hours to fully recharge.

WHICH DISPLAY OPTIONS ARE THERE?

You can choose between the Bosch Kiox 300 display, or the SmartphoneGrip. Both share the same interface and are interchangeable if preferred.

WHICH APP CAN I LINK UP WITH THE DISPLAY?

You can use the eBike Flow app by Bosch. Just download the app from the App Store or Google Play Store and install it, register your account (using your Bosch ID) and connect your Pathlite:ON 9 SUV LTD with the eBike Flow app.

SIZING AND PRICING

HOW MUCH DOES IT COST?

The Pathlite:ON 9 LTD SUV and the Pathlite:ON 9 LTD ST SUV cost €5,499.

WHAT SIZES ARE ON OFFER?

Step-over Pathlite:ON 9 LTD SUV frames are available in size M – XL, and step-through frames are available in sizes S – L.

WHAT COLOURS ARE ON OFFER?

You can buy the Pathlite:ON 9 LTD SUV in the limited-edition light grey artwork.
