

NEXT-GENERATION ENDURANCE CF SLX AND ENDURANCE CF COMPLETE NEW-LOOK ENDURANCE FAMILY

The answer to modern riders' demands – an aero bike with all-day fit, ready for all-road action.

Embargoed until Tuesday 12 May, 11:00 CEST: Following the release of the new [Endurance CFR](#) in April, Canyon is now announcing the addition of their next-generation Endurance CF SLX and Endurance CF bikes, completing the new-look Endurance family.

Endurance CF SLX: Endurance sharpened by racing

The launch of the Endurance CFR made waves just a few weeks ago. Engineered for the exceptional, this was the first time any Endurance had been used to race, and win, when up against the toughest conditions in pro cycling - the Spring Classics. Where the Endurance CFR is the fastest all-road race bike out there, the Endurance CF SLX, an entirely new, standalone platform, is the most complete and most innovative all-road endurance bike on the scene.

The new Endurance CF SLX is a bike that gives riders the confidence to tackle any road – it's fast on smooth pavement yet refined when the going gets rough. This is the answer to modern riders' demands – an aero bike with all-day fit, ready for all-road action.

- **38 mm tyre clearance:** Freedom to fit tyres for any road. Go wider for more comfort and control over rough surfaces, or try out the wide range of new, high volume racing tyres, Endurance CF SLX gives you the freedom.
- **All-day fit:** Sport Geometry on Endurance CF SLX means a higher stack and shorter reach than race bikes like the Aeroad, Ultimate and Endurance CFR, putting the rider in a more relaxed and upright position, perfect for big days out.
- **All-out aero:** Endurance CF SLX is now faster than ever. It shares its aero DNA with Endurance CFR, and in the wind tunnel it tests even faster than most race bikes competing in the World Tour, recording just 209 watts of drag at 45 km/h in TOUR Magazine testing conditions.
- **VCLS comfort:** A smoother ride with no compromises in aero performance, the groundbreaking [SP093 VCLS Aero seatpost](#) is engineered to boost vertical compliance by over 25% compared to a rigid equivalent.

- **Compact Drops on the PACE Bar cockpit:** An addition to our award-winning cockpit ecosystem, compact drops were developed for the Endurance for an endurance-optimised fit while still offering full control.
- **Easy-access LOAD Down Tube Storage:** Always there, out of sight. This expanded system stashes all you need to get out of any mid-ride bind.
- **New Canyon ED 42 CF wheels:** Available on the Endurance CF SLX 7 AXS, a new carbon wheelset engineered by Canyon perfectly complements the characteristics of the Endurance.
- **Progressive crank lengths:** Shorter crank lengths across the board (165 mm now standard on size M, down from 172.5 mm) support a more open hip angle, reduced joint stress and higher cadence while pedalling.
- **Ready for all seasons:** The first Endurance CF SLX you can run with Canyon's DEFEND Fast Fender system, providing full-coverage, rattle-free mudguard protection you can install and remove in seconds.

Endurance CF: Purity and versatility

Modern style, progressive features and carbon performance for all, the new Endurance CF is designed to bring pure joy and confidence to any ride, on any road. While this might be the most accessible carbon bike in the Canyon road range and one of the best-value carbon road bikes on the market, it doesn't cut any corners when it comes to performance.

- **Sub-1000 g carbon frame:** Lightness, direct responses, and a smooth ride, the advantages of upgrading to carbon are clear with the Endurance CF.
- **Iconic VCLS 2.0 comfort:** 27.2 mm diameter, round carbon seatposts engineered to deflect and absorb road buzz feature across the Endurance CF range, with select models finished with the latest evolution of our iconic VCLS 2.0 flex seatpost, its patented leafspring delivering an unparalleled, majestic ride quality.

- **38 mm tyre clearance:** Providing freedom to size up with wider rubber and expand the map on mixed surface all-road adventures.

- **Storage solutions:** Top tube and frame bag mounts for packs that fit perfectly without a single strap in sight, ideal for extra snacks and gear on long rides.
- **New Canyon ED 42 CF wheels:** Available on the Endurace CF 8 Di2, a new carbon wheelset engineered by Canyon to perfectly complement the characteristics of the Endurace.
- **Progressive contact points:** Shorter cranks across the board (165 mm now standard on size M) as well as narrower bars on small sizes make this the best-fitting Endurace CF yet.
- **Ready for all seasons:** Frameset mounts for DEFEND Fast Fenders, full coverage protection on wet roads.

Endurace CF SLX and CF are available now

Full line-ups for the new Endurace CF SLX and Endurace CF are now available worldwide in multiple colour options across a seven-size range from 2XS to 2XL, exclusively from [Canyon.com](https://www.canyon.com) or the [Canyon App](#).

Across the Endurace CF SLX range, all models are equipped with electronic shifting and compact gearing, as well as lightweight carbon wheels. Prices for Endurace CF SLX start at €3,999 for the Endurace CF SLX 7 AXS.

The Endurace CF line-up features a mix of mechanical and electronic drivetrain options, with both carbon and aluminium wheel builds. All bikes come with compact gearing as well as hydraulic disc brakes for full control. Prices for the Endurace CF start at just €1,699 for the Endurace CF 5.

About Canyon

What started in founder Roman Arnold's garage has grown into the world's leading direct-to-consumer bicycle manufacturer. Renowned as one of the most innovative brands in the industry, Canyon designs bikes for every discipline – from road, triathlon and gravel to mountain, city, trekking, and e-bikes.

Canyon partners with the finest athletes and teams on the planet, taking insights from the toughest race conditions to engineer bikes and components for the highest levels of the sport. The result: award-winning bikes that set the standard for performance, innovation, and engineering – built to deliver at the highest level on any terrain.

"Inspire to Ride" is the mission driving Canyon to ignite a passion for cycling around the world thanks to a streamlined direct-to-consumer model, smart digital services, and Canyon Stores and service partners offering expert advice, community experiences, and full support. At the same time, Canyon is committed to responsible business practices, sustainable production, and the safety and well-being of employees, partners, and the environment.

Canyon bikes are available at canyon.com, through the Canyon app, and at selected Canyon Stores worldwide.
