For further information on **Bosé** and **Los Enviados**:

Bosé is a biopic that follows the intense and dramatic life of legendary singer-songwriter Miguel Bosé. Surrounded by a halo of mystery, Miguel Bosé has always been very private. For the first time, the series breaks down the walls revealing the singer-songwriter's strengths and weaknesses, giving the audiences an intimate look into his life. Each episode focuses on a different Miguel Bosé song and journeys through flashbacks to pivotal moments in the artist's lifespan. The present-day timeline in the series takes place during the promotion of his multi-platinum album "Papito," a special moment for Miguel personally when he decides to make a long-delayed dream come true: to be a father. Bosé stars José Pastor and Iván Sánchez, who portray Miguel Bosé in different moments of his life.

Los Enviados tells the mission of two priests from the Congregation for the Causes of Saints, the Vatican team in charge of verifying and studying miracles of potential saints, who are sent to Mexico to verify alleged miraculous healings of another clergyman known for performing them in a mental institution. As soon as they arrive in Mexico City, they receive the news that the priest they are looking for has disappeared without a trace. Their lives and their faith are taken to the limit when they discover a psychiatric colony, located on the suburbs of the town that seems to hide more than one secret: a mystery buried for decades that underlies each inhabitant of the town. The original series features an all-star cast, including Luis Gerardo Méndez (Narcos: Mexico, Charlie's Angels), Miguel Ángel Silvestre (Narcos, Sense8), Irene Azuela (Sense8), and Miguel Rodarte (Narcos: Mexico).

Ends.
