Media-accreditation European Para Championships (8-20 August 2023) is open

The European Para Championships is a multisport event. The event will become a permanent part of the parasport calendar, returning to a major European city every four years. The very first edition of the European Para Championships will take place in Rotterdam, from Tuesday 8 to Sunday 20 August 2023. 1,500 athletes from 45 countries will compete against each other in ten different sports for the European titles and qualification for the 2024 Paralympic Games in Paris.

As media team, we are very much looking forward to welcoming media to this 'new' event, where we want to give Parasport the platform it deserves.

Registration to apply for media accreditation is open. You can apply via [this link](#). Registration closes on 30 June 2023.

Please note that when you create an account, you must confirm this within 24 hours via a link in the email. This may end up in the SPAM box, so please check.

More information about the event can be found [here](#).

ABOUT EUROPEAN PARA CHAMPIONSHIPS

The mission of the European Para Championships is to create a new standard for Paralympic sports events worldwide and to inspire people – with or without disabilities, rich or poor, young or old and regardless of background – to take up sports and exercise. We believe that only cooperation can help us succeed in this mission. By making connections, thinking big and believing in opportunities where others see limitations, we want to give adaptive sports the attention it deserves.
