Candlelight Concerts are an original series of music concerts created by Fever, which aim to democratize access to classical music by allowing people all over the world to enjoy live candlelit performances by local musicians. The concerts are hosted in stunning locations, with the space and performers illuminated by thousands of candles.

Candlelight was initially conceived as a classical music series with concerts featuring works from the greatest composers, such as Vivaldi, Mozart, and Chopin. Now, the ever-growing list of programs includes a wide variety of themes and genres, including tributes to contemporary artists like Queen, ABBA, Coldplay, and Ed Sheeran, as well as shows dedicated to K-Pop, movie soundtracks and many more. The multi-sensory experience has also evolved to feature different elements, such as ballet dancers or aerial performers, as well as other genres, such as jazz, soul, opera, flamenco and more.
