EDMONTON, AB (July 28, 2026) – Fans in Edmonton will have the opportunity to experience some of the most beloved moments from the Harry Potter™ film series reimagined in a first-of-its-kind open-air drone spectacle. Presented by Warner Bros. Discovery Global Experiences and Fever, the world's leading tech platform for discovering culture and live entertainment, **DroneArt Show: Harry Potter™** opens this fall at East Gate, Exhibition Lands Racetrack for a two-night engagement on **September 18 and 19**.

This show will blend advanced drone choreography with breathtaking aerial displays set to the enchanting soundtrack and dialogue from the Harry Potter™ film series. With a drone production by Nova Sky Stories, the experience features 1,200 illuminated drones soaring across the night sky in perfect synchronization with a live violinist bathed in a stunning canvas of light and dialogue from the films.

Enhancing the experience, attendees will wear LED wristbands, which allow them to interact with key scenes throughout the performance, becoming part of the magic unfolding around them.

“We set out to create something that feels as emotional and cinematic as the films, but experienced in a completely new way,” said Sofia Altuna, Global Lead for DroneArt Show at Fever. “We’re excited to present this experience to audiences in Canada and invite fans for an unforgettable large-scale live spectacle that celebrates the stories they know and love.”

With tour dates scheduled across Canada, the United States, the United Kingdom and Europe, select cities will host this large-scale drone spectacle, inviting wizards, witches and Muggles™ to celebrate the beloved film series. Following its Edmonton engagement, Canadian audiences will have another opportunity to experience the magic when the tour arrives in Toronto later this year.

Before the show, Edmonton’s audience can enjoy a celebratory atmosphere featuring food and beverage offerings, along with the opportunity to purchase coveted Harry Potter™ merchandise.
