

About Chane

# Chane is a leading European partner in liquid bulk storage, processing and logistics.

With 21 terminals across 6 countries including hubs in the Netherlands, France, the UK, Spain, Portugal and Poland, we offer a total storage capacity of 5.6 million cubic metres.

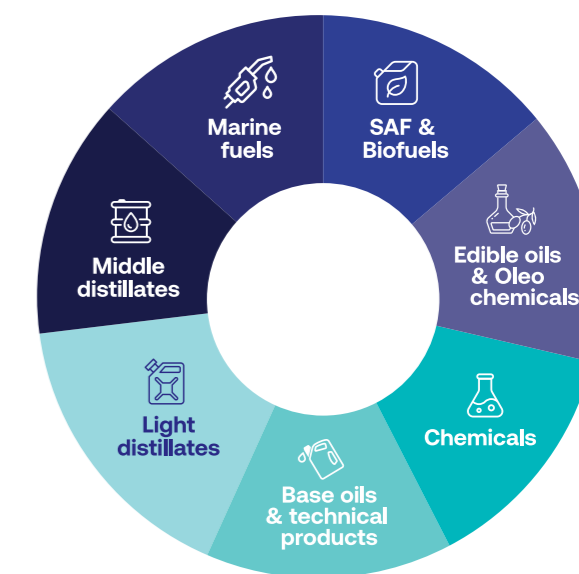

Our terminals are strategically located in key industrial and port areas, enabling seamless connectivity to global markets.

Here's where you can find us →

## Chane stores a wide range of products: Spread over 4 main product groups

- Feed and food-grade products
- Fuels bio-blending and distribution
- Specialty and bulk chemicals
- Hazardous, toxic and flammable products

Chane terminals today
