Media kit - NH Collection Madrid Palacio de Tepa

The hotel

[NH Collection Madrid Palacio de Tepa](#) is a five-star property that exudes a palatial air and evokes times gone by, when the Count of Tepa, Francisco Leandro de Viana, used this 19th-century neoclassical building as his residence in the capital. Designed by architect Juan de Villanueva, who also designed the Prado Museum and the Plaza Mayor, on its ground floor, there are remnants of the 16th-century canal system.

The boutique hotel is located in one of the most outstanding places in Madrid, the famous Barrio de las Letras, known for housing some of the most distinguished writers of the Golden Age such as Cervantes, Lope de Vega, Quevedo, Tirso de Molina or Góngora. Guests will be able to explore the area and glimpse the most glittering pages of our culture and history in its streets.

In addition, just a few steps away, you will find the Plaza Mayor and the Royal Palace, and a few minutes away other tourist attractions such as the three great museums of the city: the Prado National Museum, the Thyssen-Bornemisza National Museum and the Reina Sofia National Art Center Museum.

Services and facilities

The hotel has 83 rooms, including Premium, Deluxe, Family and Suites, with the option of choosing some with spectacular views of the Plaza del Ángel. All rooms are spacious and stylish and feature a modern style, with wooden floors and a light colour scheme. The Suite, in particular, is unique, with a fantastic two-level design, while the Junior Suites are on two floors or have vaulted ceilings, once again highlighting that palatial trend.

Among the exclusive services offered by the hotel is the *Spa & Wellness Center*, a first-class haven of peace to receive revitalizing treatments and recharge your batteries during your stay. In addition, across the street is the Palacio de Santa Ana, a space that houses the *WeMet Spa Club*, associated with the hotel, to soak in the jacuzzi, enter the Turkish bath or eliminate toxins in the sauna. The property also has a *Fitness Center*, with a cardio and weight training area, for the most sporty travelers.

Gastronomic offer

However, there is no excellence without a gastronomic offer to match. For this reason, the hotel has designed a proposal that covers each season of the day with succulent dishes and with designation of origin. To start the day in a healthy and balanced way, a buffet breakfast is offered that includes a wide selection of natural juices, pastries, cold meats, cheeses, fruit, yogurts and breads, among other things. Guests will also have the possibility to create their own vitamin brick of juice, *smoothie* or smoothie in the *Fresh Corner*, order hot dishes, as well as order an early breakfast at the reception. And for those who prefer to enjoy the first meal of the day in the privacy of their room, they also have the *Room Appetit menu at their disposal*.

To continue this gastronomic tour, NH Collection Madrid Palacio de Tepa houses the restaurant **Entre Letras** on the ground floor, where guests can enjoy a privileged view of the city and the charming local neighborhood. The menu is designed with the utmost simplicity and comfort and includes Mediterranean-inspired dishes with international touches. Guests will also have the opportunity to taste the **Castizo restaurant**, a space that pays homage to the traditional Madrid taverns of a lifetime, and which has timeless recipes with a modern and elegant touch. Exposed wood, geometric tiles and framed mirrors surround a marble bar in the centre of the bar, where a selection of cold cuts, fresh seafood and an assortment of cheeses are displayed. The menu includes delicacies such as the classic ham croquettes that pair perfectly with a house cocktail or a glass of Spanish wine.

To end the day, the property has an elegant bar located in one of the historic covered atriums, ideal for relaxing while tasting some Spanish wine from its extensive menu.

Meetings & Events

In the events section, the property has 3 rooms for this purpose decorated with elegant nineteenth-century architecture, mostly with natural light and with capacity from 5 to 65 people. Their comfort, possibilities and facilities make them ideal options for celebrating a wedding or civil ceremony. In addition, the hotel offers the possibility of having the service of an event organiser who will provide their *expertise* to guarantee the success of the event.
