

Media kit - NH Collection San Sebastián Aránzazu

The new north star

Northern light is the element that stars in the rebirth of the [NH Collection San Sebastián Aránzazu](#) hotel. An essential place in the city, whether to rest, to organize business meetings or simply to enjoy one of the most original restaurant offers in the area.

The interior design is marked by warm and subdued colours, top quality materials, cosy spaces, with charm and a clear emphasis on making the characteristic light of the city part of the decoration. Looking for an atmosphere of luxury without ostentation, at NH Collection San Sebastián Aránzazu it is possible to find contemporary lines in the furniture, works of art by local artists and a design that immediately produces a sense of calm and relaxation. Marble, wood, noble materials and an intelligent mastery of lighting are the ingredients combined in a prodigious way that make this hotel a showcase of balanced and timeless elegance.

A few metres separate the NH Collection San Sebastián Aránzazu from Ondarreta beach. Surrounded by stately homes and residential buildings, the hotel is located in one of the most privileged areas of Donostia. A short walk of just over 15 minutes next to La Concha Beach connects the hotel with the heart of the Old Town.

At the center of it all

Just a 5-minute walk away is Eduardo Chillida's Wind Comb installation. A set of huge steel sculptures embedded in the rocks where the Cantabrian Sea breaks. Also 5 minutes away is Mount Igueldo and the funicular that leads to the top – where the amusement park is located – with the best view of La Concha Bay, Santa Clara Island and the city. The iconic Kursaal – an impressive auditorium and conference centre designed by Rafael Moneo – is located just over 10 minutes' drive from NH Collection San Sebastián Aránzazu, or a half-hour walk.

Nature is very present at NH Collection San Sebastián Aránzazu. The mythical Urgull, Igueldo or Ulía mountains are fully integrated into the city as part of the urban landscape and the surroundings of the hotel. Likewise, the Miramar gardens, next to La Concha Beach – and 5 minutes away – or Aiete Park – a 30-minute walk away – are some of the lungs that make Donostia a city passionate about nature. The so-called "route of the 3 beaches" is also very accessible to visitors. Ondarreta, next to the hotel – it is the most family-friendly – La Concha – the best known – and Zurriola – with its strong waves, is the best for lovers of surfing and water sports.

San Sebastian Airport is less than half an hour away and the train station is only 10 minutes from the hotel. The French border is 40 minutes away and one of the must-sees is Saint-Jean-de-Luz, already in French territory.

The beauty of simplicity

The lobby is a welcoming space that welcomes visitors under a modern chandelier. Futuristic in inspiration and weighing more than a hundred kilos, it is made up of 5 concentric metal rings with simple and clean lines and a height that spans two floors. It is made of steel, finished by hand and is a prodigy of LED lighting. This piece represents a link between the industrial past and the technological future of the Basque Country.

A large-format iron sculpture is one of the NH Collection San Sebastián Aránzazu's tributes to local art. The work welcomes you, imposingly, at the very door of the hotel and indirectly evokes the work of mythical Basque sculptors such as Jorge de Oteiza or Eduardo Chillida. In the rooms, the lines of the furniture are contemporary, discreet and refined. Thus, we can find icons of contemporary design and carefully selected pieces.

The triumph of comfort

The 180 rooms at NH Collection San Sebastián Aránzazu are exterior, very spacious and ensure maximum comfort. Comfort is the key and it is manifested in other details such as the possibility of enjoying a pillow menu – to adapt the rest to any preference.

If the rooms are the big surprise of this project, the plus is in the renovated facilities of the fitness area, equipped by the prestigious brand Technogym. Located on the first floor, it is completely exterior, has natural light and has its own entrance. Outside the usual restaurant hours, the hotel offers 24-hour room service with a complete menu of international inspiration.

Ingredients for success

In the mornings, breakfasts are one of the main protagonists. A huge buffet of fresh and constantly renovated products welcomes you to a resplendent and warm lounge. In it, once again, the light of San Sebastian is the protagonist, nuanced by the tonality of the decoration. Like all the rooms of the hotel, this room is completely exterior and, in a subtle way, incorporates the streets of San Sebastián as part of the interior design.

For those who want to get to know the local gastronomy as much as possible, NH Collection San Sebastián Aránzazu offers a corner dedicated to local products that varies depending on the season, thus guaranteeing their freshness. It also has a chef ready to prepare on the spot some "eggs to taste" or a more elaborate dish. During the weekends or in summer, the little ones have an area where they are the "kings", with their own crockery, products suitable for their age... The buffet also offers a wide variety of gluten-free and diet products.

Gastronomy and cocktails

The slogan has been clear: to seduce the visitor, but also the local public. Taking advantage of the effervescence of the Ondarreta area as the new mecca for pintxos for the people of San Sebastian, Kukuarri goes one step further.

The NH Collection San Sebastián Aránzazu's commitment to haute cuisine stands out for being a gastronomic concept, where you can try, in the same space, pintxos, cocktails, or more formal dishes. The hotel's catering is presented in an open-plan common area but with different atmospheres – depending on what you prefer to have – and different menus. All the proposals are based on the fresh products received daily from local suppliers in the area.

In the restaurant's menu, focused on the product, natural ingredients triumph. Apparently simple dishes that allow you to savour local meats of the highest quality, fresh seasonal vegetables or fish brought daily from the fish market.

New ways to meet. New ways to celebrate

The finishing touch is the large meeting rooms – all on an elevated floor with natural light, views of the street and equipped with the latest technologies – and the gym – also outdoor and with the best machines on the market.

Next to the reception, a space has been designed equipped with the latest generation of Mac computers, as a modern "business center" for guests. One floor upstairs are some of the most important meeting rooms in the local hospitality industry. Capable of hosting everything from large events to small meetings, these 7 rooms are completely partitionable, being able to accommodate up to 300 people.

Technology is another of the attractions of these rooms, equipped with the latest in audiovisuals. Thanks to innovative multimedia projection equipment, state-of-the-art screens and high-quality sound installations, NH Collection San Sebastián Aránzazu places its meeting spaces at the technological forefront of the city. In addition, the Kukuarri restaurant offers the possibility of preparing special menus for any type of meeting that takes place at the hotel.

NH Collection San Sebastián Aránzazu is a benchmark in Donostia and, for more than 20 years, has regularly hosted teams of athletes and a large number of senior executives on business trips. During holidays or weekends, the profile of the visitor is transformed and it is families, young couples or gastronomes from all corners of the planet who decide to choose this hotel for their visit to San Sebastian.
