BOPHUT KOH SAMUI
RESORT

Island Escapes

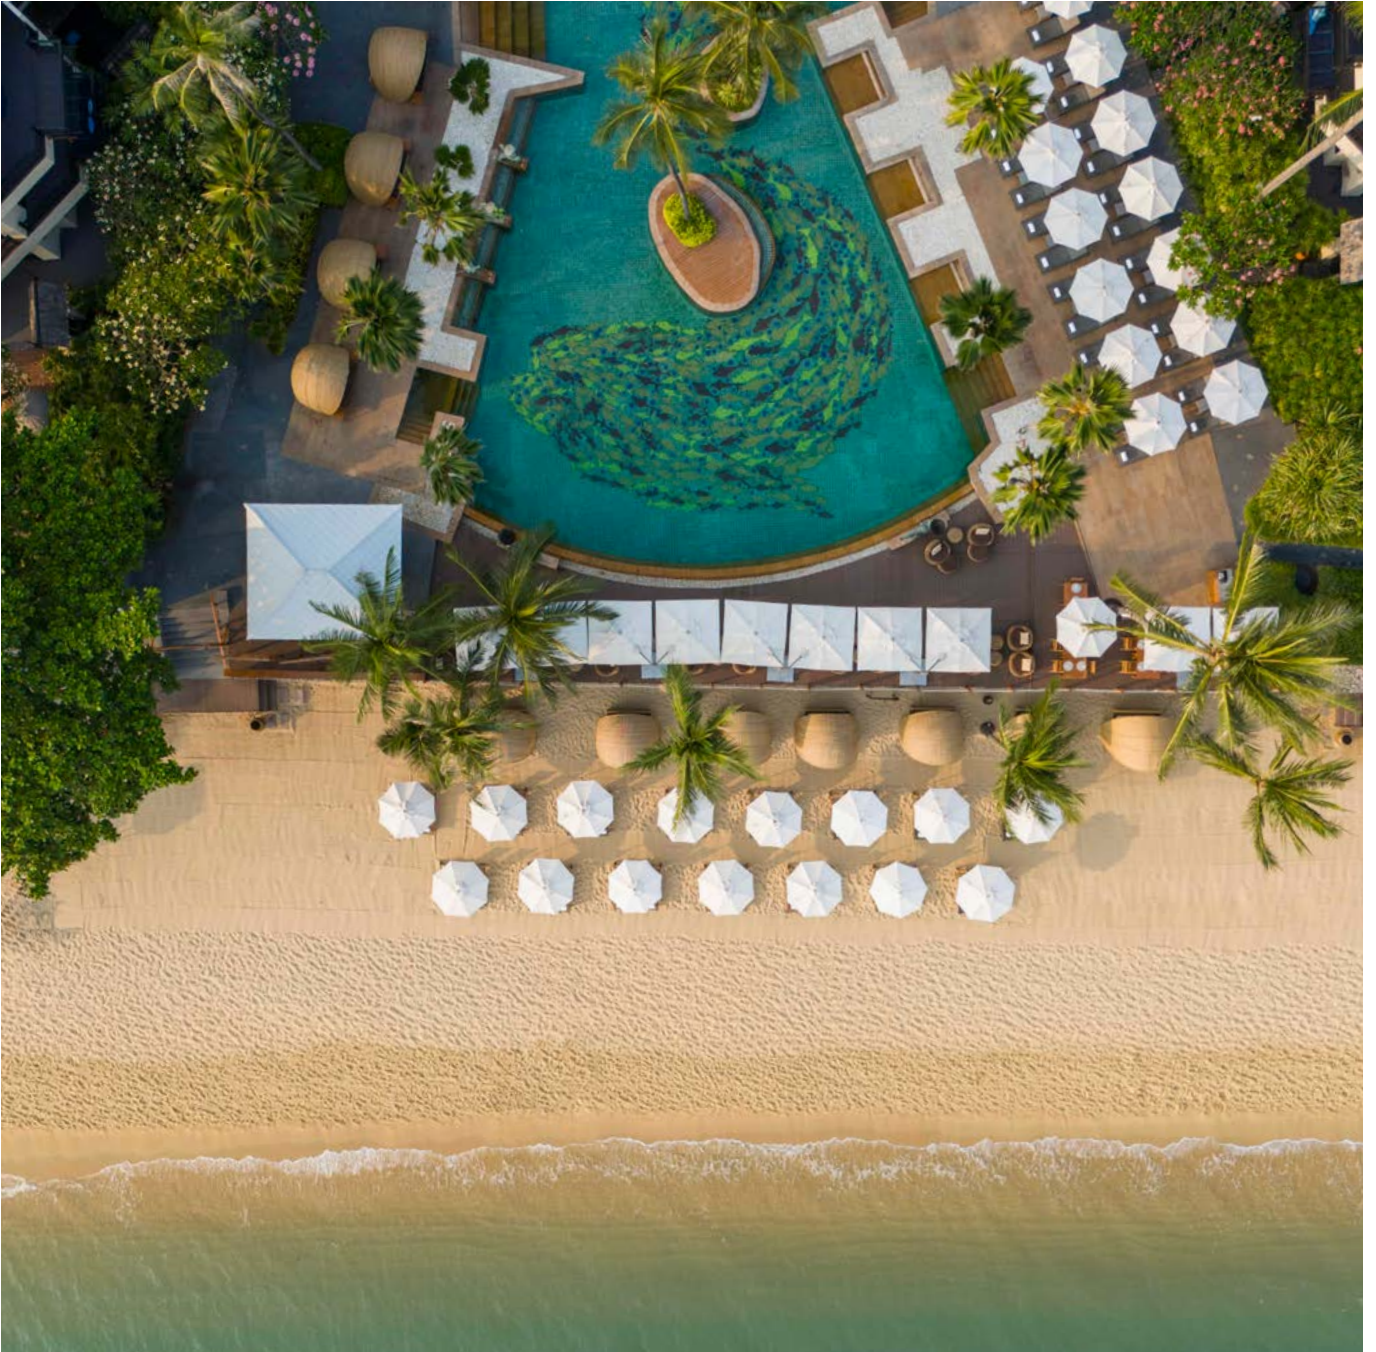

Located on the pristine Bophut beach, Anantara Bophut Koh Samui occupies a verdant site that was once a coconut plantation. The resort's spectacular landscaping with lotus ponds and a spa garden is the work of renowned architect Bill Bensley who also commissioned monkey statues for the resort to honour their role in local culture.

Inspired by the southern Thai architecture, the resort's 106 elegant guest rooms decorated in warm earthy tones are filled with natural light and provide ample space. With direct access to the native gardens, Junior Garden Suites are ideal for family holidays, while Luxury Beachfront Pool Suites come with plunge pools and allow guests to step directly onto soft golden sands.

Restaurants at Anantara Bophut celebrate some of the world's best culinary traditions. At Guilty, guests can indulge in South American cuisine. Thin Thai offers a modern twist on traditional Thai dishes, while TÂN Beach Lounge invites sunseekers to enjoy international favourites and tropical cocktails against a stunning backdrop. For special occasions, Anantara's signature Designer Dining experience offers an unforgettable private chef and butler-attended meal.

In true island style, days at Anantara Bophut are spent dipping in and out of an infinity pool, stand-up paddling or strolling the beach at sunset. The Tree House Kids' Club and Teens' Lounge, known as the Active Zone, offer immersive, culturally inspired activities for younger guests. Meanwhile, adults can unwind at the award-winning Anantara Spa, set within a tranquil walled garden and featuring a beauty salon and six treatment suites with open-air showers and terrazzo bathtubs.

Wedding and event venues range from tropical gardens and the beach to an elegant indoor banquet room.

Signature Treatments

Anantara Bophut Coconut Dream

Experience holistic balance through a fascinating ancient Thai treatment, inspired by tropical island wellness. To begin, reflex points on the feet are stimulated by standing on a coconut shell, followed by rhythmic tapping using a coconut stick. Then melt into a full body deep tissue massage that uses nourishing heated coconut oil to radiate warmth and energy deeply into the muscles to stretch fibres, release tension and improve flexibility.

Moringa Renewal

Begin your journey with a refreshing foot soak, setting the stage for relaxation. Afterwards, your therapist will use long, soothing strokes, applying cold-pressed moringa oil to help regenerate skin cells and boost moisture levels, leaving you feeling pampered and renewed. As the massage concludes, savour a cup of detoxifying and immunity-boosting moringa tea.
