# Mujinga Kambundji is the new brand ambassador for XPENG

*Switzerland's fastest woman now drives the XPENG G9*

▲ Mujinga Kambundji is the new brand ambassador for XPENG

**Dielsdorf, 18 May 2026** – When it matters, she delivers. For over a decade, Mujinga Kambundji has stood for unparalleled consistency at a world-class level, for precision in detail, and for an attitude that radiates far beyond the sports stadiums. These values now unite Switzerland's most successful track and field athlete in history and XPENG in a new partnership.

Mujinga Kambundji is much more than just Switzerland's fastest woman. She embodies inspiration and groundedness, reliability and a willingness to perform. An athlete who shines brightest when the pressure is highest. Without airs and graces, without loud fanfare – but with a mindset that defines champions.

World champion, European champion, Olympic finalist: Mujinga Kambundji has been a pioneer, showing what is possible when talent meets discipline, patience, and conviction. Even off the track, she has become a defining personality. Her way of dealing with setbacks, her humility in success, and her strong family roots make the mother of a six-month-old son a relatable role model.

“Mujinga stands for values that also drive us: uncompromising quality, precision, and a clear focus on performance. She is a personality with charisma and substance – exactly what makes for a strong partnership,” says Diego Battiston, CEO of Hedin Distribution AG.

As brand ambassador, Mujinga Kambundji will accompany XPENG at selected activities in Switzerland. On four wheels, she is now on the road in the XPENG G9 (electricity consumption 19.4 - 21.3 kWh/100 km; CO2 emissions 0 g/km; energy efficiency category: C – combined values according to WLTP). The all-electric SUV combines generous interior comfort with modern 800-volt architecture, long range, and record-breaking short charging times. With a charging capacity of up to 525 kW, the battery is charged from 20 to 80 percent within ten minutes.

“What convinces me most is the performance of the XPENG G9. The combination of comfort, high efficiency, and ultra-short charging time fits perfectly into my everyday life. I know I can always rely on the well-thought-out technology – whether for short trips or longer journeys,” says Mujinga Kambundji.

# About XPENG

XPENG (NYSE: XPEV and HKEX: 9868) is a leading electric vehicle company headquartered in Guangzhou, China, with offices in the US and Europe. The company is committed to advancing the transformation of smart EVs through technology and shaping the mobility experience of the future. To enhance its customers' mobility experience, XPENG develops in-house comprehensive technologies for advanced driver assistance systems and intelligent in-car interfaces, as well as core vehicle systems including the powertrain and the electrical/electronic architecture. Among others, the Volkswagen Group holds a 5 percent stake in XPENG (worth 700 million euros) to jointly develop electric vehicles under the VW brand for the Chinese market.
