

Media Alert: Lynk & Co 08 Redefines Plug-In Hybrid Expectations with 200 km Electric Range and Expands Brand Footprint Across Europe

The Lynk & Co 08, the first plug-in hybrid in Europe to offer up to 200 km of all-electric range (WLTP), is now becoming available across the region. With fast charging, a total driving range of over 1,000 km, and premium driving experience, the 08 gives drivers the freedom of electric mobility — without the commitment of going fully electric.

Its arrival marks a new chapter for Lynk & Co, reflecting a more elevated expression of the brand in design, technology, and user experience. In parallel, the company is accelerating the expansion of its retail footprint in 2025, strengthening its presence through a growing network of strategic retail partners, in addition to its existing Clubs and online channels.

The 08 is available in two trim levels — Core and More — with prices starting from €52,995 and €56,995 respectively in selected European markets.

When: The Lynk & Co 08 will be available starting July 2025. Customers can register their interest online and will soon be able to book test drives at their nearest retailer.

Where: The 08 will be available through Lynk & Co's retail partners, its Clubs and online. Find your nearest retailer here: www.lynkco.com/en-eu/retailers.

More info: The press kit is now available, including product specs, imagery, Q&As, and bios on press.lynkco.com.

About Lynk & Co

About Lynk & Co International

Lynk & Co is more than a car company; it's an innovative mobility provider. Offering a diverse range of car ownership options, the brand combines vibrant, cutting-edge design with pioneering connectivity solutions, offering consumers a forward-thinking driving experience.

Established in 2016 and headquartered in Gothenburg, Sweden, Lynk & Co serves seven core markets: Sweden, Netherlands, Germany, Italy, Spain, France, and Belgium. In 2024, the company launched a new retail sales channel through partnerships with local retailers, marking a significant step in its expansion strategy. More than 30 partner-operated sales points have already opened across Europe, with a goal of reaching 150 by the end of 2025. This growing network allows Lynk & Co to reach more customers while staying true to its mission: to change the future of mobility – for people, for progress, and for impact.
