

Era 100 SL: A Confident First Step into the Sonos System

Every home needs a speaker that anchors it. Era 100 SL is that speaker — built to live at the center of everyday listening today and expandable for tomorrow. Compact in size, confident in sound, it brings rich, room-filling sound wherever it lives.

- **Stereo Sound:** Built on the Era 100 acoustic design, Era 100 SL delivers wide stereo separation and balanced, natural bass while removing built-in microphones to focus on essential listening.
- **Effortless to Expand:** Era 100 SL makes building out your Sonos system feel simple. Start with one in the living room. Add a second for true stereo. Complete your home theater with rear surrounds.
- **Grows Stronger Over Time:** Ongoing software updates, expanding compatibility, and products designed to work across generations mean your system evolves with you instead of being replaced.
- **Expertly tuned:** Like all Sonos speakers, Era 100 SL was tuned with input from the Sonos Soundboard, a group of leaders across music, film, and more, to deliver sound that stays true to the artist's intent.
- **Play From Any Service or Device:** Stream from all your favorite services via Apple Airplay 2, Spotify Connect, Bluetooth®, or on the Sonos app over WiFi. Connect a turntable or other audio source with line in.
- **Responsible by Design:** Era 100 SL is made with recycled plastic and built to use less energy. Plus, its packaging features sustainably sourced, recyclable paper certified by the Forest Stewardship Council.

Audio

Amplifiers

Three class-D digital amplifiers precision-tuned for the speaker's unique acoustic architecture power your sound experience.

Tweeters

Two angled tweeters create a crisp and accurate high frequency response and stereo separation.

Woofers

One midwoofer ensures the faithful playback of mid-range vocal frequencies and deep bass.

Adjustable EQ

Use the Sonos app to adjust bass, treble, and loudness.

Trueplay

This software measures the acoustics of the room then fine-tunes the EQ. Requires WiFi and compatible iOS device.
