

ROAD

FACTOR

ONE

The ONE is more than a bike. It is the sum of every lesson we've learned, every limit we've pushed, and every risk we've taken to make speed tangible. You don't just ride the ONE. You commit to it. And in return, it commits to you, to take you faster than you thought possible.

ROAD

FACTOR

MONZA

Race sunday, train monday. not all racers are pros. Across the world, passionate competitors balance family, careers, and life's responsibilities while still pushing themselves to their limits on the bike. Their "world championships" happen at local crits, club races, fast group rides, and solo breakaways at dawn. They commute to work, train in the dark, race on weekends, and push for personal bests whenever they ride. The Monza is built for those who want to win on sunday and train on monday. It's a true high-performance race bike that balances speed, efficiency, and real-world usability, without unnecessary complexity. The factor monza is not a step down—it's a step in the right direction.

ROAD

FACTOR

OSTRO VAM

Harnessing aerodynamics, lightness, responsiveness and comfort in one bike is no longer a dream. Thanks to our engineers' expert carbon fibre lay-up techniques, our commitment to premium materials, and the unique control our own factory offers, the new Ostro VAM performs in all areas. This isn't just innovation; it's a reimagining of performance on two wheels, all designed to deliver an unmatched cycling experience.

ROAD

FACTOR

O2 VAM

The O2 vam is the definitive aero climbing bike. We didn't invent this category, but we did perfect it: nothing else this light is as fast, nothing this fast is as light. It's also extremely stiff, beautifully smooth and descends with the precision, confidence and speed of a fighter pilot. It's the ultimate choice for riders seeking full-course performance on big days in the mountains, whether you're riding the étape du tour or racing the tour de france. It's everything you dreamed of and didn't think possible, a unicorn among bikes.
