

MISTRAL 3.0

Track / Crono / Triathlon

The Mistral 3.0 builds on its predecessor's proven shell and materials, introducing the all-new Aero Pro Visor 3.0 for superior aerodynamic efficiency in the most aggressive racing positions. Developed through advanced CFD simulations and wind tunnel validation, the Mistral 3.0 is engineered for triathlon, time trial, and track racing. The internal padding made of CoolMax® fabric and a faux leather chinstrap deliver comfort and performance in equal measure. The Mistral 3.0 is sold together with the Aero Pro Visor 3.0 clear. The Aero Pro Visor 3.0 clear and the Aero Pro Visor 3.0 silver mirror are also available as accessories.

TECHNOLOGIES

AERO CONTROL

Incredibly aerodynamic and top performing shell, tested in the wind-tunnel and able to provide a really impressive CX rate. Any position the head will assume the outflow of the air will be perfectly in line with the helmet.
