

SCARPA F1 RS: LIGHTWEIGHT PERFORMANCE AND DURABILITY FOR ALPINE TOURING

The new backcountry ski boot combines **Overlap Flow construction with the **BOA® H+1 System** to deliver uphill efficiency and reliable downhill performance.**

Trust what you wear. Live what you seek.

Asolo, October 7, 2026 – **SCARPA introduces F1 RS**, the new Alpine Touring boot **designed for backcountry skiers seeking high performance without compromise**. Ideal for intermediate and advanced skiers, mountain guides and mountain professionals, F1 RS combines **strength and durability in a lightweight package** that's engineered to **provide freedom of movement and efficiency** on the ascent, along with direct power transfer on the descent.

The new **Overlap Flow Construction** makes stepping in and out of the boot effortless while allowing unrestricted freedom of movement on the ascent. On the descent, the **BOA® H+1 System** ensures precise, secure shell closure, with multidirectional micro-adjustments for quick fit control.

Overlap Flow: unrestricted freedom of movement on the ascent

The new **Overlap Flow Construction** has been developed by SCARPA to make stepping in and out of the boot effortless while maintaining a full range of motion during uphill travel and walking. The solution is targeted at long touring approaches, where mobility and efficiency are key.

The **Grilamid® Fiber Glass LFT® shell** delivers an exceptional stiffness-to-weight ratio, translating into direct power transfer and confident edge control on technical terrain. The cuff

and tongue are made from **Pebax® Rnew®**, a bio-based, high-rebound material that keeps the boot lightweight and responsive without sacrificing structural integrity.

BOA® H+1: precise adjustment and fit control

On the descent, F1 RS features the **BOA® H+1 System**, with a micro-adjustable dial engineered for effective closure even on rigid shells. The system allows the fit to be tightened or loosened easily and precisely, delivering a consistent and secure hold.

The **BOA® Fit System works together with the buckle and Booster® Power Strap** to provide a precise fit and support effective power transfer on the descent.

Completing the construction, the **Intuition® FS Tour liner** is paired with a 101 mm last, while the **FS Lever** enables a smooth transition between walk and ski modes. The **Vibram® FS outsole** provides reliable grip for walking and approaches.

Balancing efficiency and performance

F1 RS is designed for those who spend long days in the mountains and need a boot that combines **mobility and uphill efficiency with support, precision and control on the descent**. Weighing 1,340 g (½ pair, size 27) for the men's version and 1,210 g (½ pair, size 25) for the women's version, its construction keeps weight to a minimum without sacrificing the strength required on technical terrain.

Available in men's and women's versions, **F1 RS has a flex of 115 for men and 100 for women**, with a forward lean of $15^{\circ} \pm 2^{\circ}$. Compatibility with AT and TLT bindings completes a design engineered to perform efficiently throughout every stage of a day in the backcountry.

Technical specifications

F1 RS MEN'S + F1 RS WOMEN'S

- **Shell:** Grilamid® Fiber Glass LFT®
- **Cuff:** Pebax® Rnew®
- **Tongue:** Pebax® Rnew®
- **Closure:** 1 Buckle + BOA® Fit System + Booster® Power Strap
- **Ski/Walk Mode:** FS Lever

- **Outsole:** Vibram® FS
- **Last:** 101 mm
- **Forward Lean:** 15° ± 2°
- **Binding System:** AT + TLT
- **Country of Origin:** Italy

F1 RS MEN'S

- **Liner:** Intuition® FS Tour
- **Flex:** 115
- **Weight:** 1,340 g (½ pair, size 27)
- **Sizes:** 24.5–31

F1 RS WOMEN'S

- **Liner:** Intuition® FS Tour Women's
- **Flex:** 100
- **Weight:** 1,210 g (½ pair, size 25)
- **Sizes:** 22–27

Price and availability

SCARPA F1 RS will be available from **October 7, 2026**, at a retail price of **€ 729.95**.

ABOUT SCARPA

SCARPA was founded on the belief that No Place Too Far exists to be explored. A vision that reflects a deep respect for the mountains, and one that supports those who aim to turn every limit into a new benchmark. Craftsmanship and innovation come together to create footwear for every path, from everyday challenges to the most demanding peaks.

Grounded in a family-owned Italian heritage and a direct production chain, SCARPA has always invested in human relationships built on trust and mutual understanding. Every product is born from a real world need, interpreted with expertise to create high-performance, durable footwear. Authenticity, mountain culture and conscious innovation guide every decision—yesterday as much as tomorrow.

Founded in 1938 in Asolo, in the heart of Italy's Veneto footwear district, SCARPA is an international company specializing in footwear for mountaineering, climbing, trail running, trekking, hiking, outdoor lifestyle, ski mountaineering, and telemark. With offices in Italy, Germany, the United States, and China, and production facilities in Italy, Romania, and Serbia, SCARPA remains a reference point for those who experience nature as a source of freedom and adventure.
