

# YOUR CHECKLIST FOR CONSCIOUS TRAVEL

**Choose your travel buddy.** With the Hello smart app, you can easily stay connected to your car from anywhere. All you need is an Internet connection on both devices, and off you go. Discover all the functions of your faithful urban companion: with detailed vehicle information in real time such as range, charge status, location, and tire pressure, you can keep an eye on everything important, anytime and from anywhere.

**Choose responsible transportation.** On site, opt for low-carbon transportation options such as walking or cycling whenever possible. For longer distances, the smart #1<sup>1</sup> or #3<sup>2</sup> will take you safely to your destination with optimum energy efficiency and zero emissions. Traveling in the winter? With the complete [winter wheel package for the smart #1 or smart #3](#), you can reach your destination safely in any weather condition. Do you have a little more "luggage?" With a towing capacity (braked) of 1,600 kg, the [trailer couplings for your smart #1 or smart #3](#) have enough space for your animal companion or sports equipment.

**Sustainable accommodation.** If your trip is a little longer, choose a destination where you can enjoy a break from everyday life – perhaps surrounded by nature or exploring a new city. Opt for local accommodations, restaurants, and tour operators to positively impact the local economy and immerse yourself in the area's culture.

**Pack your essentials.** The smart #1, with a trunk capacity of 323 liters (Pro+, Pulse) and 313 liters (Premium, BRABUS), and the smart #3, with 370 liters in all lines, offer enough space for all your luggage and equipment. Consider a [reflective jacket](#) for enhanced visibility throughout the day. For cooler weather, we recommend slightly warmer quilted jackets for both [men](#) and [women](#). A [backpack](#) or a smaller [bag](#) can provide additional storage as needed.

**Stay connected.** With the smart #1 or #3, you can travel seamlessly through numerous in-car and mobile app features that keep you connected – no matter which turn you are taking. With the intelligent navigation system, which includes real-time traffic monitoring, range information, and frequently visited destinations, you will always reach your destination safely. The system can also reroute to nearby charging stations during the journey. Using your smartphone, you can connect wirelessly to Apple CarPlay or Android Auto for convenient access to your media and messaging apps via the central display.

**Open your mind.** At smart, we foster openness to new perspectives and opportunities. We break with convention and are constantly looking for the best solutions for urban mobility and beyond. That is why we also encourage you to respect and be open to local customs, traditions, and cultural norms when traveling. Learning some phrases in the local language, sampling local cuisine, and being open to new experiences and people are all part of the journey.

<sup>1</sup>Electricity consumption combined in kWh/100 km: 18.2 (BRABUS/Pulse), 16.8 (Premium), 17.4 (Pro+), 18.1 (Pro), 17.4 (Pure+), 18.1 (Pure) (WLTP); Combined CO<sub>2</sub> emissions in g/miles | g/km: 0; Electric range (WLTP) in km: 400 (BRABUS/Pulse), 440 (Premium), 420 (Pure+/Pro+), 310 (Pure/Pro).

<sup>2</sup>Electricity consumption combined in kWh/100 km: 17.6 (BRABUS/Pulse), 16.3 (Premium/25th Anniversary Edition), 16.8 (Pro+), 17.2 (Pro) (WLTP); CO<sub>2</sub> emissions combined in g/km: 0; Electric range (WLTP) in km: 415 (BRABUS/Pulse), 455 (Premium/25th Anniversary Edition), 435 (Pro+), 325 (Pro).
