

Beeline Announce New Distribution Partnership with Corver in Spain

Beeline, the navigation specialists known for their rider-focused innovations, are proud to announce their new distribution partnership with Corver, a leading distributor of premium motorcycle products in Spain.

Groundbreaking Moto II Range now available for Spanish Riders.

This marks a significant step in Beeline's European growth strategy, bringing their acclaimed navigation technology to one of Europe's most passionate and active motorcycling markets. With Corver's strong dealer network and industry expertise, Spanish riders will now have direct access to Beeline's latest and most advanced product range.

"We're thrilled to partner with Corver, a distributor that shares our passion for innovation, performance, and enhancing the rider experience. Spain has one of the most vibrant motorcycling communities in Europe, and we're excited to bring our cutting-edge Moto II range to riders across the country with the support of such an experienced local partner."

Mark Jenner, Co-Founder Beeline

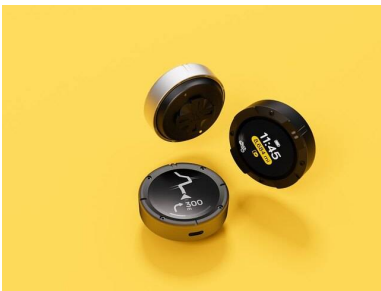

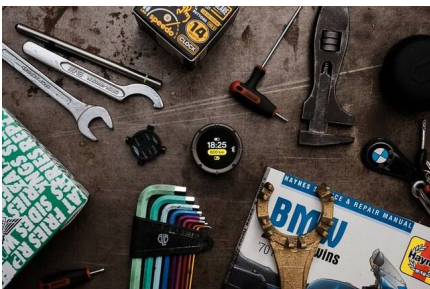

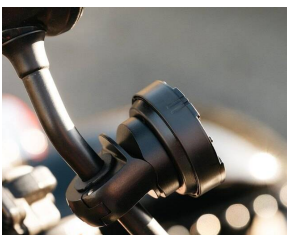

Beeline Moto II - Rethink Your Ride.

The Beeline Moto II is the next-generation motorcycle navigation device - designed from the ground up to give riders a smarter, safer, and more enjoyable riding experience. Featuring a bright colour display with anti-glare and hydrophobic coatings, it delivers crystal-clear visibility in all conditions. The sleek, pocket-friendly design comes with two bezel styles to suit everything from retro to rugged rides.

Built to be waterproof, shockproof, and fully adventure-ready, Moto II integrates easily into any bike setup thanks to a versatile new mounting system. With 14 hours of ride time, USB-C charging, months of standby power, and an optional powered mount, it's made for life on the road. The intuitive interface features glove-friendly buttons positioned for easy access, no matter your mount setup.

Navigation is smarter and more intuitive than ever, with multilingual support, speed camera alerts (subject to availability), and comprehensive ride tracking via the Beeline app - letting riders plan, record, and share routes with ease. Available in Black Plastic and Metal Editions in Silver or Gunmetal Grey, Moto II is more than a GPS - it's a beautifully engineered riding companion designed to integrate seamlessly into any cockpit and every journey.

Whether you're navigating winding mountain passes or city streets, Beeline Moto II keeps you on course - safely, stylishly, and effortlessly.

"Beeline Moto II is exactly the kind of innovative product we love to bring to our customers - smart, intuitive, and made for real riders. We believe it will be a game-changer for the Spanish market, and we're proud to be part of Beeline's journey."

Jose Luis Salmerón, Sales Manager Corver

Contact for Dealers in Spain

Interested dealers who would like to learn more about the Beeline Moto II Range are kindly asked to contact their Corver Sales Representative or the main office under corver@corver.es.

About Beeline

We're building a world where getting on two wheels is easy and knowing where you're going is even easier.

Our mission is simple: to make every ride safer, more enjoyable, and more connected to the world around you, wherever you're going.

Beeline exists to empower cyclists and motorcyclists with navigation tools that are intuitive, beautifully designed, and built to last. Whether it's your daily commute or a weekend ride into open countryside, we help you stay focused on the ride, not the tech.

From twisty lanes to city streets, Beeline makes space for riders to stay present, explore freely, and enjoy the journey.
