

Beeline Moto - New Online Route Planner

London, 07.08.2023 - The new beta version of the online route planner enables the Beeline community to plan even more easily - especially for longer routes.

The new Beeline online route planner

The beta version of the new online route planner is now available! This additional planning option was at the top of the Beeline community's wish list. Especially helpful for longer tours with a larger number of waypoints or intermediate stops, the tool now gives users the option to plan their route conveniently on desktop.

The online route planner can be used without a Beeline account, but if users have logged in with their Beeline credentials during desktop planning, the planned tours are saved directly in the app profile and can be navigated effortlessly from within the app.

▲ Beeline Online-Routenplaner

The route planner is already fully integrated into the Beeline website and can be found at this link: <https://maps.beeline.co/>

Please note: In the beta version, the route planner is currently available only in English. The German-language version will be added as soon as possible. Further details can be found in the [Beeline support section](#).

Almost 3 million tours ridden!

The **Beeline Explorometer** is soon set to reach the record mark of **3 million tours ridden!**

Beeline Explorometer

2,744,178 rides

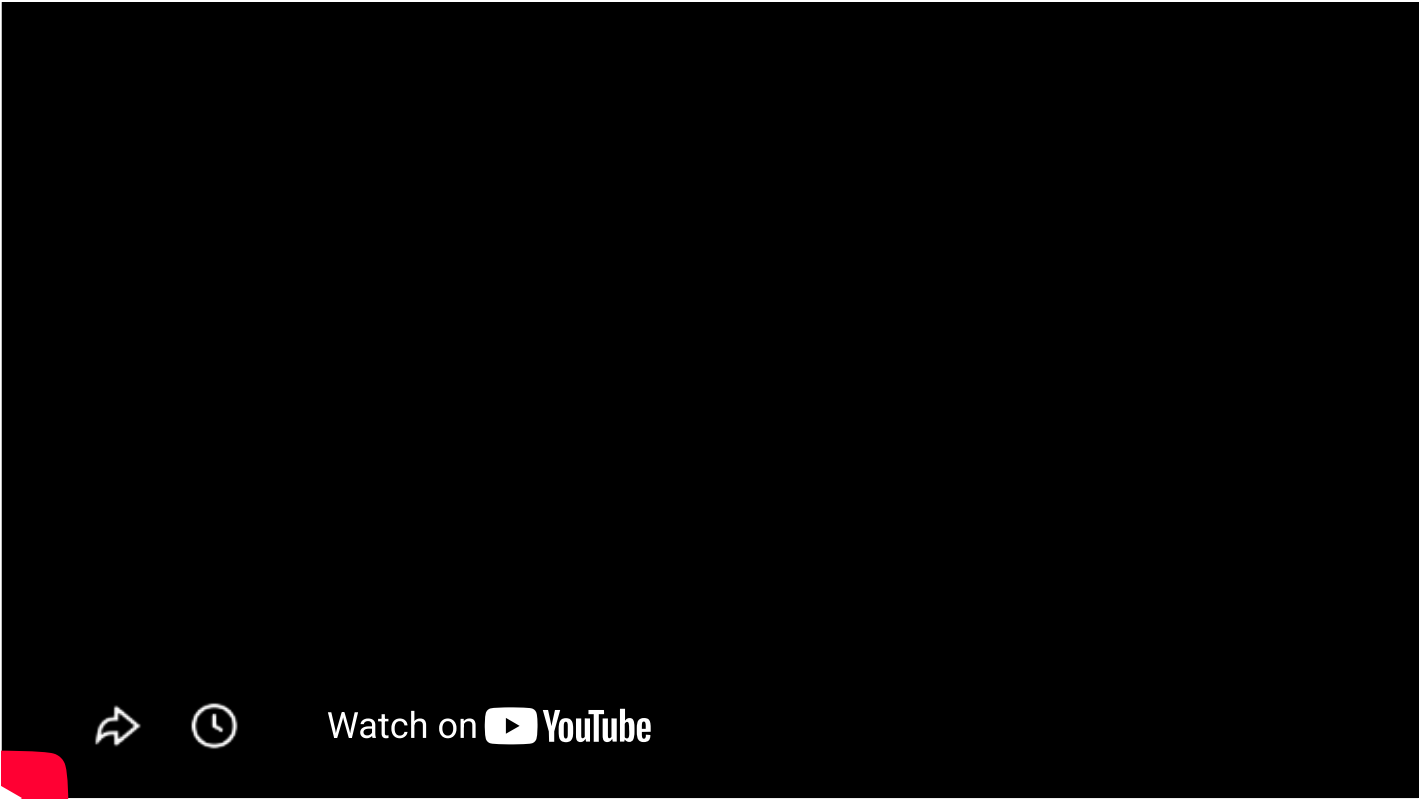

115,755,415 km

▲ Beeline Explormeter

The Beeline Moto at a glance

The Beeline Moto navigation device is available worldwide through specialist retailers or can be ordered via the [Beeline website](#).

The Beeline Moto is available in three different housing versions at a price of **£149.99 - £199.99**. The functions of the Beeline app are free of charge.
