

Pipistrel to showcase innovative aircraft lineup at EAA AirVenture

WICHITA, Kan. (July 14, 2026) — [Pipistrel](#) will showcase a lineup of innovative training aircraft at the 2026 Experimental Aircraft Association (EAA) AirVenture in Oshkosh, Wisconsin. Displayed alongside Cessna and Beechcraft aircraft, the lineup reflects Pipistrel and Textron Aviation's commitment to delivering advanced training and flight solutions that help shape the future of aviation.

Aircraft on display

With more than 2,800 aircraft produced and operations spanning more than 100 countries, Pipistrel has earned a reputation for advancing aviation through innovative design and pioneering technologies — capabilities aviation enthusiasts can experience firsthand at the Textron Aviation booth #78.

Aircraft expected to be on display include:

- [Pipistrel Panthera](#)
- [Pipistrel Sinus MAX](#)
- [Pipistrel Alpha Trainer](#)

Pipistrel representatives will be on hand to discuss the company's innovative aircraft lineup. Visitors can experience aircraft ranging from gliders and trainers to high-performance platforms.
