2021 NEW PRODUCT INTRODUCTIONS

VINTAGE SELECT EDITION

Vintage Select Edition guitars are designed for the player who appreciates the finest in musical instrument heritage. The all-new **Vintage Select '89 Jet™** guitars resurrect a classic late-'80s design that rocked the forefront of the Pacific Northwest grunge movement that overtook the music world in the early 1990s.

Delivering signature solid-body power and punch, these grunge-era beauties feature period-correct chambered mahogany construction, which magnifies harmonic richness by letting air resonate between the top and body for a livelier and more articulate tone. TV Jones® TV Classic™ Plus bridge and TV Jones TV Classic neck pickups replicate that unmistakable vintage Filter'Tron™ sound to fabulous sonic effect. A versatile control layout features master volume with treble bleed circuit, master tone, individual pickup volume controls and three-way pickup toggle switch.

Other features include a maple set neck, 12"-radius rosewood fingerboard with pearloid Hump Block inlays, bone nut, G-arrow knobs, Bigsby® vibrato tailpiece, Adjusto-Matic™ bridge with pinned rosewood base, Gotoh® tuners, silver pickguard, nickel hardware and late-'80s black headstock with Gretsch logo and horseshoe inlay. Models include:

Delivering powerful overdriven attitude and shimmering cleans, each **Players Edition Jet BT™** begins with a select 1.85" mahogany body with maple top that produces a strong, balanced mid-range, while the chambered body delivers a smooth attack and extended bandwidth that is remarkably wide and harmonically rich. Designed by the famed Tim Shaw, the Gretsch Broad'Tron BT65 pickups meticulously captures the guitar's sonic palette and reproduces powerful mids, extended lows and an exceptionally clear, yet smooth high end. The result is the perfect mixture of wall-shaking power and full-spectrum fidelity that delivers unparalleled overdrive and shimmering cleans.
