

PreSonus expands Eris® monitor family with new Eris® E5 BT active media reference monitors

**ERIS E5 BT ACTIVE MEDIA REFERENCE MONITORS OFFER
OUTSTANDING SOUND QUALITY, AMPLE POWER, AND BLUETOOTH
AND WIRED CONNECTIVITY**

BATON ROUGE, LA. (APRIL 19, 2022) — PreSonus Audio Electronics, Inc. today announced the launch of the new Eris E5 BT Active Media Reference Monitors with Bluetooth. Equipped with 50 watts of Class D power for each speaker, Eris E5 BTs are the finest and most powerful media reference monitors PreSonus offers. With flexible analog and Bluetooth 5.0 wireless inputs, accurate frequency response, and a rich, full bass response, Eris E5 BT monitors are ideal for beatmakers, home studio producers, and anyone who wants the best listening experience for their home audio setup.

Featuring a 5.25-inch woven-glass composite woofer that delivers rich, tight low end and a 1-inch silk-dome tweeter for transparent high frequencies, Eris E5 BTs delivers the same sound quality as the award-winning PreSonus Eris studio monitors used by professional, hit-making audio engineers the world over. Known for their accurate, crystal-clear sound and even response throughout the frequency range, Eris studio and media reference monitors allow music to be heard exactly as artists and engineers intended. In addition, High and Low Acoustic Tuning controls enable adjusting the E5 BTs precisely to the listening environment, further ensuring accurate sound.

Eris E5 BT media reference monitors' combination of ¼-inch TRS balanced inputs, unbalanced RCA inputs and stereo Bluetooth input makes it easy to connect to an audio interface, gaming system, computer, or Bluetooth-compatible media player. A front-mounted headphone jack enables private listening, and a ⅛-inch stereo Aux In accepts signals from non-Bluetooth audio devices. The Eris E5 BT is also the first in the Eris family to offer a ¼-inch TRS Sub Out for adding a subwoofer, such as the PreSonus Eris Sub8. In addition to outstanding sound quality, versatile connectivity, and excellent construction quality, the Eris E5 BTs' stylish design makes them a welcome addition to small studios, living rooms, compact home theater setups, and gaming rigs.

"Our Eris E3.5 and E4.5 Bluetooth studio monitors have seen tremendous global success, and we continue to focus on pushing the boundaries of innovation," said Jim Boitnott, EVP of PreSonus Products. "After immense customer demand for a 5.25-inch version, we've created the Eris E5 BT, which offers a truly premium experience and deeper low frequency response while still retaining the compact footprint today's content creators need. "

PreSonus Eris E5 BT Active Media Reference Monitors are available immediately (MSRP \$249/pair USA, €249.00 EUR, £209.000 GBP, \$399.00 AUD, ¥35,200 JPY). Images can be found [HERE](#). ABOUT PRESONUS AUDIO ELECTRONICS, INC.:

PreSonus Audio Electronics Inc. is the leading designer and manufacturer of recording and live-sound hardware and software solutions that solve real-world problems for creatives of all levels. Founded in 1995 and headquartered in Baton Rouge, La., PreSonus designs innovative audio tools for musicians, content creators, producers, and audio engineers, providing professional sound quality and features without sacrificing affordability. Today, PreSonus is an owned brand under Fender Musical Instruments Corporation (FMIC). While

most guitar and bass players still plug into amplifiers, many also plug their instruments into interfaces, recording songs as well as using virtual amps and effects to create their sounds. With a shared passion for music and a commitment to innovation, FMIC and PreSonus are focused on delivering an ecosystem that seamlessly integrates hardware and software for an effortless end-to-end experience. ABOUT FENDER

Since 1946, Fender has revolutionized music and culture as one of the world's leading musical instrument manufacturers, marketers, and distributors. Fender Musical Instruments Corporation (FMIC)—whose portfolio of owned and licensed brands includes Fender®, Squier®, Gretsch® guitars, Jackson®, EVH®, Charvel®, Bigsby®, and PreSonus® – follows a player-centric approach to crafting the highest-quality instruments and digital experiences across genres. Since 2015, Fender's digital arm has introduced a new ecosystem of products and interactive experiences to accompany players at every stage of their musical journey. This includes innovative apps and learning platforms designed to complement Fender guitars, amplifiers, effects pedals, accessories, and pro-audio gear, and inspire players through an immersive musical experience. FMIC is dedicated to unlocking the power of musical expression for all players, from beginners to history-making legends. In 2026, Fender celebrates 80 years of giving artists "wings to fly," carrying on the vision of its founder, Leo Fender, and connecting players through a shared love of music.
